ISO 27001:2022 CONSULTANCY SERVICES

THREAT **READY**

LRQA

Your Risk Management Advantage

ASSESS. IMPLEMENT. ASSURE.

With a strong pedigree in ISO 27001 certification, LRQA can provide consultancy services to support you throughout your ISO 27001 journey.

If you've yet to establish your baseline, we will conduct a detailed analysis against the mandatory clauses and Annex A controls of ISO 27001:2022. This highlights specific areas of focus and provides a clear roadmap of the tasks required for certification readiness.

Ready to move beyond diagnosis to active remediation? Our team supports you with tactical implementation activities including policy creation, risk assessment workshops and the implementation of controls to ensure your Information Security Management System (ISMS) is built on solid foundations.

Maintaining compliance requires rigorous checking. We deliver structured Internal Audit programmes and management reviews to validate that your people, processes and technologies are operating effectively and meeting the standard's strict requirements.

SERVICE PRINCIPLES

PRAGMATIC SOLUTIONS

We work closely with you to develop appropriate and focused security services. We seek ways to reduce risk and manage effort while ensuring your unique business requirements and product values are protected.

RISK-LED FOCUS

Our consultants help safeguard your attention where it matters most. By focusing on areas where the highest risks are presented, we ensure your resources are allocated efficiently rather than just “ticking boxes”.

REAL-WORLD EXPERTISE

LRQA trainers and consultants bring current, real-world experience into the engagement. They tailor delivery based on the specific threats you are facing, ensuring the ISMS is practical and robust.

OUR APPROACH

Mandatory & Annex A Gap Analysis

We perform a “dry run” of the certification process, assessing your current arrangements against the core management system clauses (4-10) and the applicable Annex A controls. This validates existing good practice and identifies non-conformities

Implementation Strategy & Support

We develop a prioritised strategy that differentiates “quick wins” from longer-term transformation projects. Support includes policy documentation, third-party risk reviews, and security awareness training to embed the ISMS into your culture.

Internal Audit Programme

To satisfy the requirement for an internal audit function, our consultants act as an independent internal resource. We produce balanced audit reports that evidence your compliance to the certification body, highlighting both positive activities and areas needing support.

ABOUT LRQA

LRQA is a leading global risk management partner.

Through our connected risk management solutions, we help you navigate an evolving global landscape to keep you one step ahead.

From certification and cybersecurity, to safety, sustainability and supply chain resilience, we work with you to identify risks across your business. We then create smart, scalable solutions, tailored to help you prepare, prevent and protect against risk.

Through relentless client focus, backed by decades of sector-specific expertise, data-driven insight and on-the-ground specialists across assurance, certification, inspection, advisory and training, we support over 61,000 organisations in more than 150 countries.

LRQA – Your risk management advantage.
