MANAGED EXTENDED DETECTION & RESPONSE (MXDR)

Powered by CrowdStrike. Managed by Experts.

THREAT READY

LRQA.com

LRQA

Your Risk Management Advantage

ENTERPRISE-GRADE XDR, DELIVERED AS A FULLY MANAGED SERVICE.

Managed Extended Detection & Response (MXDR) from LRQA combines the power of CrowdStrike XDR technology with our 24/7 Security Operations Centre to help you detect, investigate, and respond to cyber threats faster and more effectively.

We remove the complexity of operating advanced security platforms, giving you **continuous protection, expert response, and clear visibility** across your entire attack surface.

WHAT WE PROTECT

Using CrowdStrike's XDR platform, we provide visibility and protection across:

ENDPOINTS & SERVERS

Desktops, laptops, on-prem and virtual servers.

CLOUD WORKLOADS

Public cloud and hybrid environments.

IDENTITY & ACCESS

Credential misuse, privilege escalation, lateral movement.

INTEGRATED SECURITY SIGNALS

Network and email telemetry where supported

All data is analysed together to expose advanced threats that traditional tools miss.

HOW OUR MXDR SERVICE WORKS

24/7 MONITORING

Our SOC continuously monitors your environment using CrowdStrike's AI-driven analytics to identify real threats in real time.

THREAT INVESTIGATION & HUNTING

Our analysts proactively hunt for suspicious behaviour, uncovering hidden threats before they cause damage.

RAPID RESPONSE

When a threat is confirmed, we take immediate action to contain compromised endpoints, block malicious activity and guide or execute remediation.

CLEAR, ACTIONABLE REPORTING

You receive concise reports tailored for both technical teams and business leaders - not raw alert noise.

WHY CHOOSE OUR CROWDSTRIKE-POWERED MXDR?

✓ BEST-IN-CLASS TECHNOLOGY

Built on CrowdStrike's proven XDR platform.

✓ 24/7 HUMAN EXPERTISE

Always-on monitoring by experienced security analysts.

✓ REDUCED ALERT FATIGUE

Correlated alerts with full attack context.

✓ FASTER DETECTION & RESPONSE

Lower dwell time and reduced impact.

✓ PREDICTABLE COSTS

Enterprise protection without building your own SOC.

XDR ARCHITECTURE
