Faster progress through technology

Implementation & Delivery Management

Clarity, direction, and real-world impact

Who we are

We partner with ambitious leaders to cut through digital complexity and accelerate the UK's security, resilience and prosperity. Our teams design and integrate solutions that fit seamlessly into existing systems, turning strategy into measurable progress.

We blend strategy, technology, and change expertise to tackle complex challenges. Our specialists deliver actionable plans, robust architectures, and sustainable transformation across digital strategy, AI, and data governance.

Defence, government, and industry leaders trust us to deliver results that matter.

Our three principles

These principles guide what we do and how we work:

Force for Good

We empower our team, clients, and society by investing in people, supporting positive change, and championing national resilience and prosperity.

Deliver Excellence

We set the highest standards in everything we do. We think long-term, focus on what matters, and enable our team to deliver outstanding results for ambitious clients.

Empathy & Integrity

We listen to understand, challenge constructively, and always act with honesty and care, owning our decisions and doing what's right, even when it's hard.

Implementation & Delivery Management

We provide senior programme leadership to run complex delivery with clear governance and reporting. We manage plans, risks and dependencies, and keep teams and suppliers aligned.

Our role will ensure delivery discipline, issues are managed early and create a healthy delivery culture.

Features

- Senior programme leadership with clear governance and delivery cadence.
- Integrated plan management across workstreams, teams and suppliers.
- Risk and issue management with practical mitigation actions.
- Delivery reporting that supports decisions, not paperwork.

Benefits

- Improved delivery confidence through disciplined leadership and transparency.
- Reduced risk through active management of issues and dependencies.
- Better supplier outcomes through clear oversight and accountability.
- Faster progress through focused decisions and fewer distractions.
