INFuse DATA SOLUTIONS

ABOUT US

INFuse Data Solutions are a Data Analytics, Reporting and Business Intelligence Migration Consultancy based in Chester in the North-West of England. Our aim is to help you unlock your data's potential and achieve more for your business.

Microsoft Partner

WE ARE PROUD TO BE A MICROSOFT CLOUD PARTNER

OUR SERVICES

ANALYTICS & REPORTING

Delivering powerful insights into business operations to enable intelligence-led data-driven decisions.

DATA ENGINEERING

Designing and developing your data pipeline workloads into your Data Warehouse. Priming your data for analytics.

CONSULTING SERVICES

Architecture planning, process review, requirements and project management are all key considerations on your analytics modernisation journey.

MIGRATION SPECIALISTS

Experienced consultants in application data migration and migrations from IBM Cognos and SAP BusinessObjects to Power BI and Microsoft SQL Server.

DATA QUALITY AND DATA GOVERNANCE

In line with best practice Data Governance standards, we design solutions that are "black box" automated and auditable.

OUR PRINCIPLES

We aim to deliver business value quickly and often. We are adaptive and welcome changing requirements.
We strive to deliver usable software frequently, working software is the primary measure of progress. Communication is key, we will engage stakeholders and trustees and communicate frequently and clearly.

OUR APPROACH

AGILE

We map out user stories and deliver business value often (in 2-3 week sprints) using JEDU (Just Enough Design Upfront). We prioritise the delivery of business value early in customer engagements and ensure that the benefits of working with us are quickly realised.

INCLUSIVE

We believe in building long-term partnerships with our clients and making sure our teams work together in synergy. We don't have customers, we build partnerships. Your business is our business

COMMUNICATIVE

Rich communication is key to understanding requirements. We use modern technologies to communication and control development e.g. Slack, Asana & Microsoft Teams.

HONEST & TRANSPARENT

We are proud of being a company that stands by the advice it provides. We are people that genuinely enjoy coming to work every day and delivering great projects using the latest technology. We aim to build long standing relationships. Integrity is centre of everything we do.

WE OPERATE A DEDICATED SUPPORT HELPDESK DURING UK BUSINESS HOURS

OUR PEOPLE

Our highly skilled technical team, including MS Fabric, Power BI and Support Consultants and Senior Data Engineers, have 30+ years combined experience and are overseen by the management team. Meet The Team

CONNECT WITH US ON LINKEDIN

Please feel free to connect with us on LinkedIn to find out more, we would be happy to chat. Check out our Company Page **here**, where we publish a monthly business intelligence blog.

TECHNICAL DATABASE TYPICAL SERVICE

TECHNICAL DATABASE SERVICE

INFuse will partner with your project team to deliver technical database services, including:

- Defining the data scope, assessing existing systems, and establishing realistic delivery timelines.
- Advising on the selection of a secure, scalable platform aligned to operational and business needs.
- Developing and executing a technical database implementation and migration roadmap, prioritising critical systems and high-value data.
- Ensuring data quality through analysis, transformation, and controlled loading of data.
- Validating migrated data, establishing governance and quality controls, and supporting reporting requirements.
- Providing post-implementation support to optimise performance and ensure long-term sustainability.

OUR CLIENTS

We are very proud to have a customer base of leading businesses with whom we have developed long lasting, supportive partnerships. We have experience in a range of sectors including Social Housing, Local Gov, Manufacturing and Retail. Here are some of the organisations we are currently working with, and those who have trusted us to deliver results in the past.

TESTIMONIALS

"Don't wait until a data deadline becomes an issue, get INFuse in early and get things right the first time around! The quality and accuracy of data discovery, processing, scripting, mapping, and co-working will make sure you're on track from the outset with a fighting chance of meeting milestones and data passes with no errors."
Gareth / Governance Manager at North Wales Housing

"INFuse were brought in to assist in the data migration portion of our Housing Management replacement project. Their friendly manner and calm approach instilled such confidence in the project team and brought a level of assurance that we could not have achieved without them."
Joanne / Project Manager at North Wales Housing
