1 Pricing Model

We operate a rate card pricing model. Resource level and required time is based on the specific needs of the client and the solution. Our models, tools and analytics services are bespoke to each client and the project will depend on their IT and Data Infrastructure, the scale of use and the volume of user training required. For each call-off contract, Akeso will propose a custom scope, project timeline and resourcing model and show a clear breakdown of fees, including any discounts applied.

2 Rate Card

We have aligned our G-Cloud rates for the Government Digital and Data Profession Capability Framework against our internal rate card below.

	Day Rate
Trainee	**£400.00**
Associate / Junior	**£950.00**
Consultant / Practitioner	**£1,100.00**
Senior	**£1,300.00**
Lead	**£1,500.00**
Head	**£1,800.00**
Partner / Chief	**£2,400.00**

All fees exclude VAT

3 Invoicing Process

Akeso will invoice clients based on an agreed schedule. All invoices will be payable within 30 days. PO's and invoices must be sent to account-cs@akeso.co.uk.
