Service Description

Data Loss Prevention (DLP) Implementation

NODE4 © 2026

CHANGE CLIENTS CAN FEEL AT EVERY LEVEL

ABOUT THE SERVICE

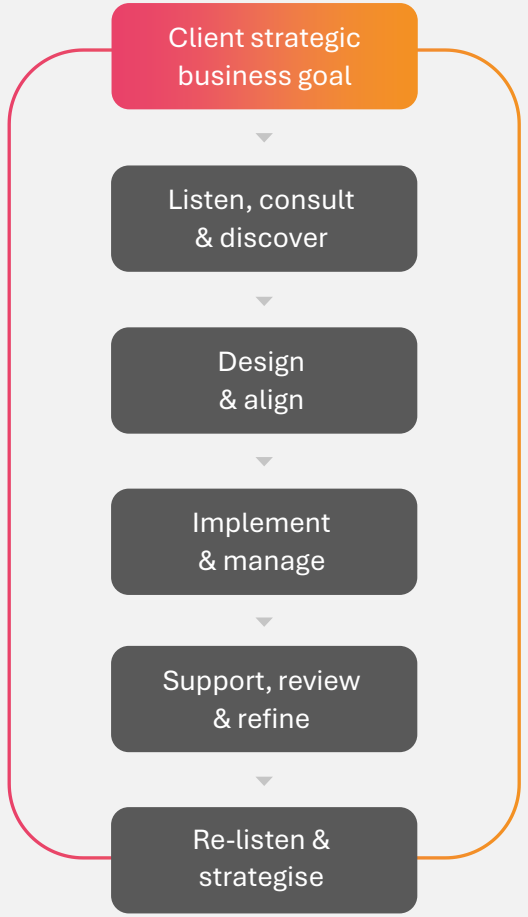
Our Data Loss Prevention (DLP) Implementation service is designed to analyse your unique business requirements and deploy a tailored DLP solution that safeguards sensitive data against loss and misuse. This service ensures your data protection strategies are in alignment with security policies and regulatory compliance demands, offering a thorough and effective approach to data security.

Service features include a detailed business requirements analysis, custom DLP implementation, policy configuration, IT infrastructure integration, user training, testing and validation, optimisation of DLP settings, continuous monitoring, and compliance support. These aspects are aimed at enhancing your organisation's ability to protect sensitive information, ensuring legal and regulatory compliance, reducing data breach risks, customising security measures, empowering your teams, and optimising security investments.

The benefits of our service encompass improved data protection, compliance with data protection standards, minimised financial and reputational risks, tailored data security measures, enhanced team capabilities, targeted security investment, secure data handling, clear incident visibility, a proactive risk management approach, and strengthened overall security posture.

It's important to recognise service constraints, which include the necessity for existing IT infrastructure compatibility with DLP solutions, the need for comprehensive system access for effective analysis and integration, challenges in accurately identifying sensitive data and developing suitable DLP policies, and the requirement for significant collaboration from your organisation. Additionally, maintaining DLP effectiveness over time requires ongoing updates and adjustments to address changing security threats and business requirements.

ON A JOURNEY TO CHANGE, WITH YOU



WORKING TOGETHER TO ACHIEVE YOUR GOALS

THE JOURNEY SO FAR...

2004 - 2014

THE EARLY YEARS

Founded in 2004
By Andrew Gilbert
Opened 3 data centres
LETN acquisition

2015 - 2016

BUILDING SOLID FOUNDATIONS

Bowmark Investment
Premier IT & Reconnix acquisition

2017 - 2018

DEVELOPING PUBLIC CLOUD

N4Stack Launched covering public cloud, data & DevOps
HSCN achieved

2019

ACQUISITION SUCCESS

Secura acquisition
Employee Experience Awards winner

2020

PANDEMIC RESPONSE

Launched N4Engage
COVID-19 Response
Launch of SD-WAN

2021

EVEN MORE GROWTH

Starcom acquisition
TNP acquisition
MS Azure Expert MSP
Providence Investment

2022

LOOKING TO THE FUTURE

risual acquisition
Tisski acquisition
Launched Azure Hybrid Cloud
Great Place to Work 3 years in a row

2023

THE FUTURE IS HERE

TNP, risual, Tisski and core Node4 teams join together
BizApps and Power Platform capability rollout
Microsoft Inner Circle status acquired through Tisski
ThreeTwoFour acquisition

IT'S OUR CULTURE THAT MAKES A REAL DIFFERENCE TO YOU

When it comes to ESG, our actions speak for themselves.

NET ZERO by 2030

We already power our data centres with renewable power. Beyond that, we partner with Carbon Neutral Group to offset our other emissions.

UNITED NATIONS SUSTAINABILITY DEVELOPMENT GOALS

We're continually working to align our CSR strategy and activities with the United Nations 17 Sustainable Development Goals (SDGs) at both a local and national level.

Each of our employees is fuelled by a passion for technology and what it can do to make your organisation grow.

We're vibrant, passionate and united by a dedication to delivering **EXCEPTIONAL SERVICE AS A STANDARD**, not only to our clients, but to each other too.
