Voyagerr Flexible Transport Pricing Schedule

The Voyagerr WeYou platform offers a state-of-the-art digital web-based platform to book and schedule all types of flexible transport. This includes DDRT, adult social transport, mainstream and SEND school transport.

It has a best-in-class optimisation engine and business rules to cater for the most vulnerable individuals, be they adult or child. A modern user-friendly web-based interface combined with driver and parent/passenger apps for real time communication and an extensive set of modules complete a comprehensive solution.

All processes are linked so that data is entered once and available for use by other team members in different modules.

Module	Pricing basis	License Fee	Yearly Maintenance
Core (WeCore)	Up to 1,499 clients* (small)	£ 17,000	£ 21,000
