

INNAXYS LTD

PRICING SCHEDULE

G-CLOUD 13

Innaxys is proud to offer to G-Cloud users a comprehensive suite of Solutions for use in Policing and across Emergency Services in the UK and abroad.

TAILORED SOLUTIONS - DIFFERENTIATED PRICING

Our Solutions are all modular and can be tailored to the exact needs of your organisation.

In order that each client is able to procure the best value service for them, we offer differentiated pricing depending on the circumstances of your individual organisation, which may vary due to:

- Size of organisation
- Solution, Package, Modules required
- Number of users (volume discount)
- Number of users for each module in the Solution (not all users will use all functionality)
- Type of hosting required (SaaS, Private hosted instance, On-premise)
- etc.

INDICATIVE PRICING

The pricing below is indicative, based on a small UK Police Force taking a secure, segregated tenancy of one of our hosted Solutions. For a detailed quote, get in touch to discuss your requirements.

DYTASK

The DyTASK© Evidence Based Policing Platform is a comprehensive eco-system comprising a suite of innovative modules able to interact with each other to cover a large scope of policing requirements. (Note, significant discounts are available where multiple modules are procured.)

TRAINING

	PRICE
Additional Training Days	£850 per day

KEY FACTS

- Support is included in the price per user
- Onboarding includes configuring the system to the org structure and user roles required, importing of users and legacy data if available (subject to accessible formatting)
- Includes a suite of standard reports. Additional reports can be set up if required as part of the configuration and training is given on accessing the data and creating further bespoke reports if needed
- Initial training is provided to up to 10 users in the cost of onboarding. Additional training is available if required, please contact us for details.
- For externally hosted Solutions, all data is held in secure ISO27001 certified UK Data Centres, documentation available on request

ALTERNATIVE HOSTING OPTIONS

On Premise

DyTASK, and any of its composite modules and packages, can be deployed as an On Premise Solution where required by your organisation. We are happy to support your engineers and IT teams to determine and deploy the appropriate infrastructure to optimise the performance of the Solution

All Innaxys engineers are vetted to NPPV3 level, some with Counter Terrorism Clearance, and have experience of assisting other UK and Europe based Emergency Services and public sector clients with similar deployments

Private Holding - Single Instance

If preferred, DyTASK can be deployed on a hosted infrastructure, but as a single instance dedicated for your organisation, rather than as a tenancy of a shared infrastructure.

Prices vary depending on the package and configuration being deployed – get in touch and we are happy to provide a no-obligation quote
