ELECTRONIC MONITORING – HEALTH SERVICE DESCRIPTION

Buddi is a **discrete** and **stylish** solution that enables an individual to retain their independence in **their own home**

Buddi offers family and carers **peace of mind** and reassurance with **support** from our 24/7 monitoring centre

Buddi can **reduce the need for additional care** and delay the transition to residential care

-  Push button emergency alarm
-  Automatic fall alert
-  Location finder
-  24/7 emergency monitoring
-  Safe places
-  Activity and sleep monitoring

“Buddi has changed mine and my mum’s life! Before Buddi she left the house once a week, now she goes out every day for walks with her dogs. Buddi has given us a huge confidence boost knowing that wherever she is, she will be able to get help. Thank you!”

Sarah, Buddi user’s daughter

“Thanks to Buddi I now have a better quality of life and can resume my lifetime hobby of fishing with the aid of my buddi and the wonderful back up team. Thank you for the dedication and support during 2016”

John Hicks, Buddi user

-  Automatic fall alert
-  Location finder
-  24/7 emergency monitoring
-  Private, secure messaging

"I made my grandfather start wearing a Buddi 2 years ago - he is 95, lives alone in London and is fiercely independent. Last week it saved his life. Buddi doesn't just give him confidence; it gives all of us confidence. We couldn't be more grateful that this little wrist band exists. Thanks Buddi!"

R Johnston, Buddi user's son

"It works really well for him and he really likes it. Before, he was nervous going out in cold, icy weather as we live in a rural area. Now, he's getting on the bus to Halifax, 20 miles away. It has really opened up his world again and made him more active."

S Boocock, Carer of Buddi user

www.buddi.co.uk - 0800 978 8800 - sales@buddi.co.uk

Buddi Hub

The Buddi Hub is **digital ready** with no landline or wi-fi required.

The Buddi Hub has simple plug and play technology to support an **efficient hospital discharge** as no on site installation is required.

The Buddi Hub **enables independence** at home with **reassurance** for family and carers from our 24/7 alert monitoring centre.

-  Push button emergency alarm
-  Automatic fall alert
-  24/7 emergency monitoring

Mini

Buddi's Mini utilises the same **proven tracking hardware** as in all Buddi products and is **conveniently packaged** to fit easily in a pocket or purse or attached to a key chain with a lanyard.

Designed to watch over vulnerable person's whereabouts, the Mini can **detect when they are in 'safe' or 'unsafe' zones** and will display its location on our portal

Notifications can be **sent directly to your mobile phone** or email. They can also be sent to the person using the Mini to serve as a friendly reminder.

- 📍 Location finder
- 📞 24/7 emergency monitoring
