ISO 42001 Introduction

ISO 42001 is the world's first international standard for Artificial Intelligence (AI) Management Systems (AIMS). It provides a framework for organisations to manage AI risks and ensure ethical, transparent, and responsible AI development and deployment.

ISO 42001 is the only certifiable AI Management System standard, and it applies to any organisation that develops, deploys or manages AI systems.

Key Requirements of ISO 42001

ISO 42001 specifies requirements for implementing, monitoring and managing AI systems to ensure AI is used safely and responsibly.

ISO 42001 sets out requirements for:

- AI governance policies
- Risk assessments and impact analysis
- Lifecycle management of AI systems
- Bias prevention and fairness controls
- Transparency, accountability, and explainability
- Compliance with ethical and regulatory standards

Romano Security Consulting ISO 42001 Consultancy Service Description

Romano Security Consulting delivers ISO 42001 consultancy services to help organisations design, implement, and manage an effective AI Management System (AIMS). We support the full certification lifecycle from scoping and implementation through to ISO 42001 certification.

Romano Security Consulting ISO 42001 Consultancy Services

Romano Security Consulting provide various levels of consultancy support for organisations who are looking to implement ISO 42001.

ISO 42001 Certification Support

© Romano Security Consulting Ltd

Consultancy advice, guidance and support covering all the required elements of the standard to achieve compliance with ISO 42001 including a gap analysis, conducting an AI risk assessment, training and awareness, creation of policies and procedures, internal audit, management review.

ISO 42001 Implementation

We can help develop all of the mandatory AI policies and processes to comply with the ISO 42001 standard.

ISO 42001 Gap Analysis

If you need to measure your current level of compliance against the standard, then our ISO 42001 Gap Analysis is a great starting point. We'll work with you to identify any gaps; we then provide you with a detailed roadmap on how to close the gaps.
