AMICIS GROUP

CyberGuard

SECURITY SOLUTIONS

What is Amicis Group CyberGuard?

Amicis Group's CyberGuard service delivers essential enterprise grade cyber security solutions tailored for SMEs, providing peace of mind through a flexible monthly fee. Protect your business with scalable security that grows with you, no large upfront costs, just ongoing protection that fits your budget.

1 The Challenge

The UK's 5.5 million SMEs represent 99% of all businesses, yet many lack cyber security due to skillsets, affordability and complexity. Amicis Group is here to change that with CyberGuard, a tailored, scalable security service on a flexible monthly charge. Protect your business with confidence and keep pace with growing cyber threats

2 Aligned with NCSC Requirements

CyberGuard aligns with NCSC essentials and good practices for SMEs, covering data backup, malware protection, smartphone security, strong passwords, phishing prevention, and regular updates. Our scalable, monthly service keeps SMEs compliant and secure, letting you focus on growth with confidence.

3 Why Amicis Group CyberGuard?

SMEs face many challenges like limited budgets, staff constraints, increased exposure, and a lack of cyber security expertise. Our flexible monthly CyberGuard service is designed to meet these needs, offering tailored protection that fits within SME budgets, supports small teams, and provides the expertise needed to keep your business secure, without the need for in house resources.
