Nymo Care Planning

G-Cloud Specific Pricing

1. SERVICE OVERVIEW

Nymo Care Planning is a cloud-based solution designed to streamline and optimize the management of care plans, ensuring real-time updates, compliance with regulations, and efficient coordination across care teams.

Streamline Care Management

- Easily create, update, and track personalized care plans for clients.
- Manage case details, schedules, and assignments with real-time updates.
- Over 10+ types of care plans and workflows, including medication tracking, progress reports, and appointment management.
- Quickly process and update client data, attendance records, and health information.

Enhance Collaboration & Efficiency

- Track progress with a real-time compliance dashboard for team visibility.
- Reduce manual work and improve coordination with automated workflows.
- Fully integrated third-party services for seamless data access and reporting.
- Ensure regulatory compliance with built-in security features and audit trails.

Ease of Use

- Cloud-based for access anytime, anywhere on PC, tablet, or mobile.
- Simple setup with reusable templates and customizable workflows.
- Compatible with most healthcare and social service platforms with full support.

ADDITIONAL COSTS:

- Premium Support (24/7 support, dedicated technical account manager): £1.00 per user per month
- Custom Integrations: Pricing available upon request based on the scope of integration.
- Data Migration: Custom pricing based on the volume of data and complexity of migration.

PRICING BENEFITS:

- Scalable: Flexible pricing based on the number of users.
- Volume Discounts: Larger organizations receive lower per-user pricing.
- Support Options: Choose between basic support or premium support for enhanced service.

EXAMPLE BREAKDOWN:

- For a medium-sized team of 50 users:
- Essentials Tier: 50 users * £2.50 = £125 per month
- Professional Tier: 50 users * £3.00 = £150 per month
- Enterprise Tier: 50 users * £4.50 = £225 per month
- Elite Tier: 50 users * £5.50 = £275 per month
- The Professional Tier would be most suitable for teams requiring more advanced features like notifications, compliance, and custom integrations.
