Pricing Assumptions

- Alternative pricing available on OpenText Axcelerate Private Cloud – GCLOUD Edition for shorter contract durations (minimum 1 year) and larger data volumes.
- Minimum subscription for OpenText Axcelerate Private Cloud – GCLOUD Edition is 1 Terabyte Under Management (TUM) and 1 year
- Minimum subscription for OpenText Axcelerate OnDemand Cloud – GCLOUD Edition is 50 Gigabyte Processed and 1 year hosting, Reduced Per GB rates may be applied for greater volumes.
- OpenText Axcelerate Private Cloud - Unlimited data processing and data analytics functions (provided total point in time storage stays within TUM limit)
- No user licence fees on OpenText Axcelerate OnDemand Cloud – GCLOUD Edition. Additional concurrent user packs only required to validate support SLAs on OpenText Axcelerate Private Cloud – GCLOUD Edition.
- Cloud subscription covers all software and hardware maintenance and support, including upgrades to latest released version
- Full backup, disaster recovery and failover included in subscription on OpenText Axcelerate Private Cloud – GCLOUD Edition and OpenText Axcelerate Private Cloud – GCLOUD Edition.
- OpenText Axcelerate Private Cloud – GCLOUD Edition, additional consultancy costs for on-boarding, administrator training and customization will apply, dependent on specific customer requirements.

The table below shows the optional available solutions relating to this service, pricing details will depend on customer requirements and the existing OpenText solutions provided. Pricing is available upon request:

Optional Additional Components	Description
Additional Concurrent User Packs	Monthly additional charge for short term increase in concurrent users. As user requirements decrease, the additional cost is removed. Please note that this is not a requirement BUT is recommended for performance purposes and support is not provided for performance issues if the user SLA associated with the contracted TUM tier is exceeded.
Burst Capacity	Burst capacity packages are available to cover a range of additional data requirements with costs charged on a per month basis.
Multi-Factor Authentication for Administrator desktop access	Available on all Axcelerate Cloud installations.
Multi-Factor Authentication for End-users	Available as a cost option on all Axcelerate Cloud installations.
Remote Access (Microsoft RDP)	Available as a cost option on all Axcelerate Cloud installations.
Archive Storage	Lower priced archive storage is available in 1TB increments for off-line storage of Axcelerate

	databases, native data or work product. This archive storage is not calculated as part of your “TUM” capacity
Single Sign-On	Available as a cost option on all Axcelerate Cloud installations.
Optional Premium Services	
Data Processing	Standard ingestion of raw native files on behalf of the customer can be provided when clients require project assistance or to balance workload.
Productions	Service to assist with the standard process of producing data from Axcelerate to provide an exported set for the purpose of producing that data to opposing parties, government agencies or other production needs. There is no limit on volume.
Data Migration	Services are available to assist with data migration from legacy systems to Axcelerate Cloud
Project Management	The availability of professional project managers to help in the workflow and handling of project tasks. This service is available to our customers when needed (but the customer can also fully self-serve without our support if they prefer).
