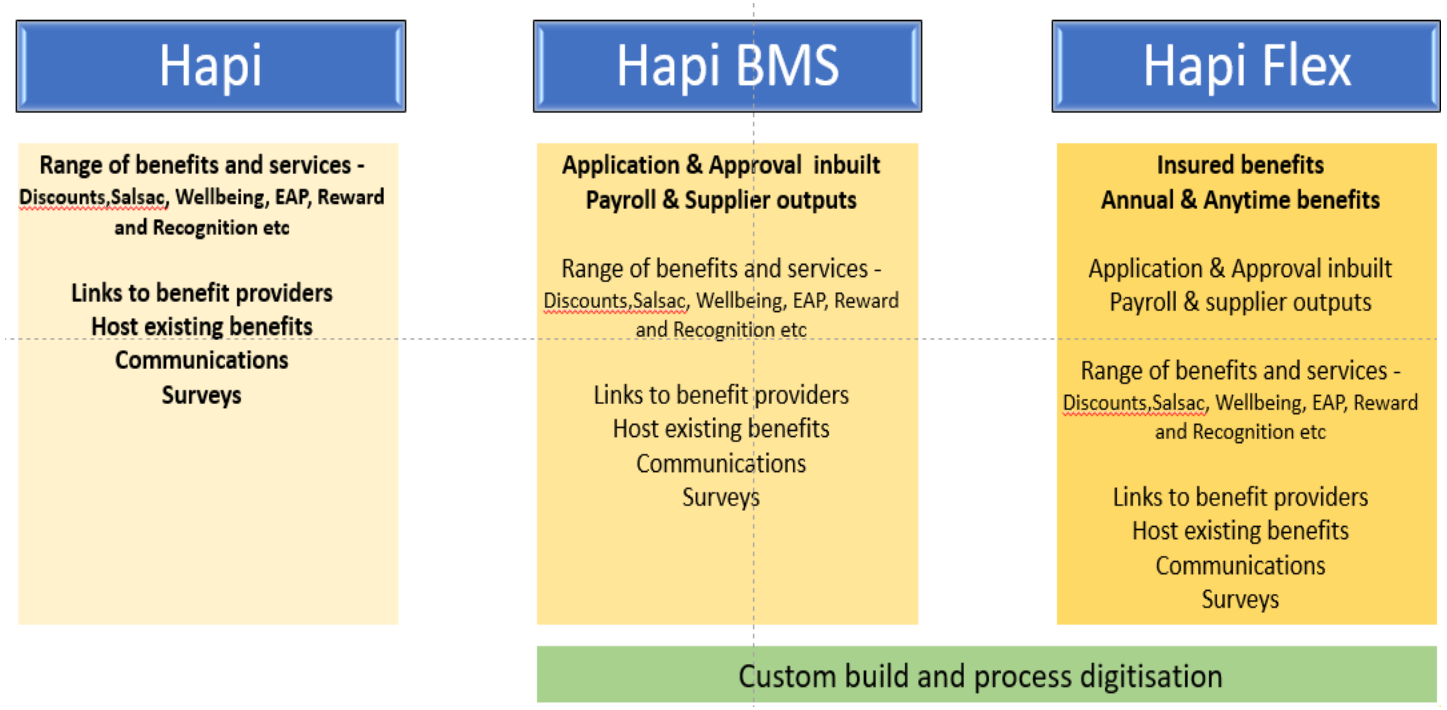
Personal Group Hapi Pricing

January 2026

Different Platform Options



Hapi can be configured to offer 3 different types of benefit delivery.

Prices will vary according to the level and complexity of the services required and the number of eligible employees.

The bespoke solution allows Hapi to be configured to the client organisations requirements, integrate existing benefits or offer a different range of services and benefits.

Platform costs

Hapi can be configured the deliver 3 levels of service, prices will vary according to the level and complexity of the services required and the number of eligible employees.

The bespoke solution allows Hapi to be configured to the client organisations requirements
