Pricing Notes

1. Indicative proposal based upon a standard "out of the box" Liberator system.

2. Indicative proposal based upon the supply of the single module shown.

3. Project management, configuration, location set up and training to be charged separately as per day rates.

4. Other complementary Liberator modules are available.

5. There may be additional fees for additional Liberator modules.

6. There may be additional fees for the integration and set up of the additional modules.

7. Third party interfaces are not included in the indicative prices.

8. Third party interfaces will be assessed and charged on a project by project basis.

9. Any days shown are based on a "standard" implementation.

10. The actual number of days required for each implementation will be dependent on the clients needs.

11. Any data migration requirements will be assessed and charged on a project by project basis.

12. Transactional services are not included in the indicative prices.

13. Transactional services charges will be assessed and charged on a project by project basis.

14. Charges do not include the supply or support of local infrastructure or communication needs.

15. Charges may be subject to annual RPI reviews.
