# Pricing Document G Cloud

## **IMPLEMENTATION CHARGES**

The standard set-up charge for this product is £10,000.

Any customisation to the standard product will be agreed in advance and priced accordingly against our SFIA rate card based on the number of days required.

Training for the product is included in the price and will be provided remotely via MS Teams. Additional training requirements or face to face training will be agreed and charged based upon the SFIA rate card

Implementation fees are typically payable at contract commencement.

## **ANNUAL CHARGES**

The annual charge for this product is £4,995. This price includes hosting, application management and relevant licences, service management and help desk support.

The annual charge typically becomes payable at 30 days from contract commencement or at go-live, whichever date is earliest.

## **YEAR ONE STANDARD COST**

The standard year one cost for this service without optional extras or customisation would be £14,995.

## **MINIMUM TERM**

The minimum contract term is 12 months.

## **USER LICENSES**

This service includes unlimited concurrent users for your organisation.

## **RESOURCE BASED PRICING**

A range of related professional and technical resources can be procured on a flexible basis. The relevant prices for all resources are provided in a separate SFIA rate card document, alongside other documentation in our catalogue entry.

## **DISCOUNT PRICING**

Discounts are available for any subsequent purchases via G-Cloud. All our G-Cloud products are built upon our ESB platform. Any subsequent product purchased will be deployed to the same ESB installation, thus allowing for economies of scale.

For products with an annual price of £10,000 and below, an annual discount of £1,000 will be applied. For products with an annual price above £10,000, an annual discount of £2,000 will be applied.

Example: Product 1 is purchased at £5,995 therefore the next purchase will receive an automatic £1,000 discount to the annual price of that product.
