

## G-CLOUD PRICING

Pricing may be dependent upon the following factors:

- Customer sector (Government/Law Enforcement)
- Modules selected
- Number of users
- Services, Maintenance and Support requirements
- Data volumes, storage and access requirements

Example of how pricing is structured is as follows for Black Rainbow's NIMBUS product set:

Software Licences				
Product	Tiered Application only pricing (Annual licence cost per user) 1 to 50 Users	Tiered Application only pricing (Annual licence cost per user) 51 to 100 Users	Tiered Application only pricing (Annual licence cost per user) 101 to 500 Users	Tiered Application only pricing (Annual licence cost per user) 501 + Users
