Enhanced Feature List

- In addition to our core products above, there are a number of available enhanced features within these products that come with an additional fee. A list of these features is below:
- Enhanced feature list: Face Look up (one to many), Place of Birth extraction, Asian Character Extraction, Custom Data Point, Address Extraction, Multi Document Upload, Driving License Class Extraction
- The cost of each of these features is \$0.15 per transaction, regardless of volume. This is in addition to the core product cost
- eKYC includes database lookups that are part of Jumio's KYX platform. There is a wide range of these available

Notes

- A platform fee is applied when clients wish to run the KYX Platform. This is required when clients use multiple Jumio products to prove and affirm the identity of the user, in an ongoing manner
- Screening includes PEPs, Sanctions and Adverse Media check, both initial screening and ongoing monitoring
- Jumio GO is Jumio's fully automated ID and Identity Verification solution
- Video Verification can be assisted or unassisted, hence the wide range
- Due to the nature of Transaction Monitoring, pricing is highly custom based on set up, so guidance cannot be given here
- All prices are subject to our Terms of Service
- Prices are exclusive of VAT

A woman with long dark hair is smiling and looking down at a smartphone in her right hand. She is also holding a light-colored folder or stack of papers in her left hand. A white wireframe mesh is overlaid on her face, representing facial recognition technology. The background is a blurred outdoor setting. The entire image has a blue-to-purple gradient overlay. The logo 'jumio' is centered in the foreground, with 'jumio' in white and 'io' in green, followed by a registered trademark symbol.
