Akamai's Prolexic - Distributed Denial of Service (DDoS) Pricing Guide

Defenx is a London based Cyber Security and Media Delivery company who specialise in custom-fit solutions for our clients. Our custom fit approach allows us to always find a solution that works for companies of all sizes, from smaller businesses to larger enterprises.

Akamai's Prolexic - Distributed Denial of Service (DDoS) is priced by unit. Base prices start at £3,000 per unit per month. Prolexic is a fully managed security service. This means that Akamai's SOCC team will manage every attack event that your business has from start to finish, no matter how long it lasts. It is also an unlimited service, we do not impose limits on the number of attack events we will mitigate in the contract period nor do we impose limits on the volume of attack traffic we will mitigate. No extra support is needed, it is included in the base price. Please don't hesitate to contact us at akamai-sales@defenx.com.

Enterprise style deals & time limited discounts may be available. Individual Prices may increase during the contract as per CCS guidelines.
