Loved by our clients

"VRP has been a key partner in ideation, design and delivery of Yocova. They continue to impress with their attention to detail, high level of communication, and willingness to go the extra mile."

Mark Goodhind
Chief Product Officer at Yocova

"With VRP you can always expect clear communication, commitment to meet project goals and proactive input of ideas for the optimal implementation."

Rafael Blaschke, Head of Master
Data & Contracting

Loved by our clients

"We appreciate VRP Consulting's professional project management, communication, and Salesforce expertise evident throughout the project. Now we can easily match and distribute donations to suitable projects. We are already working on new projects with them."

Anders Wikstrom
Chief Finance Officer

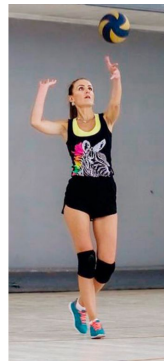

"Working with VRP has been great for us. The VRP team has always taken on board our crazy ideas and helped to turn them into solutions which are workable, scalable and impactful."

Simon Glenister
CEO

Who we are

We are passionate professionals putting people at the heart of everything we do:

- Admins & artists
- Business analysts & book lovers
- Consultants & cooks
- Developers & dancers
- Delivery managers & dog walkers
- Project managers & photographers
- Scrum masters & rugby players
- Trailblazers & travellers

Our commitment to you

We put people at the core of everything we do and are committed to providing the highest quality Salesforce® consulting, development, outsourcing and support to customers of all sizes and industries. We are:

Transparent

You always know what's going on because we provide clear and concise updates throughout the project. We have regular show-and-tell sessions with stakeholders to get feedback and fresh inputs as the project moves along. Throughout the collaboration you are in total control.

Innovative

Innovation comes from people. Use our experience and expertise to turn your Salesforce platform into the optimal solution. We hone the ideas from your own organisation and unleash the power to create something incredible. Whether you are implementing Salesforce for the first time or evolving your platform; chances are we've done it before or know how to do it.

Agile

In this fast-paced world you need to react to changes and seize opportunities. We can rapidly respond as the project evolves based on changing circumstances or end-user wishes. You have full access to our centres of excellence.

Customer obsessed

Your success drives our business. All our employees put their customers first in every project, to the point where we feel part of your team. As projects move towards completion, our clients often ask to continue our collaboration, either on new phases or providing support.

Plant for the Planet

We know that there is no planet b. That's why for every **five days of work** we do for a customer, **we plant a tree** in their name. We are committed to reducing our environmental impact and helping other people and companies do the same. Together, we can tackle the climate crisis and create a sustainable, low-carbon future for all.

Our partnership with **Plant-for-the-Planet Foundation** contributes to Salesforce's mission of planting 100,000,000 trees and empowering the next generation to make a stand for a more sustainable life in the future.

Let's plant the seeds and get growing.

VRP

Our pledge

We are committed to the Salesforce® 1% pledge program

People

Our people dedicate time and expertise to the community:

- Helping Save the Children Netherlands improve their volunteer recruitment solution
- Donating blood, fundraising for local charities, planting trees, working with local orphanages
- Working with Szlachetna Paczka Poland to deliver gifts
- Supporting breast cancer research in the UK with a “10k Steps a Day” fundraising campaign

Product

We created a new Salesforce Accelerator App: **GivingX**

- Working closely with a UK based charity, we have created this giving site connector providing insights into effective donation sites, enabling charities to optimise their missions

Profit

Our partnership with **Plant-for-the-Planet Foundation** contributes to Salesforce's mission of **planting 100,000,000 Trees** and empowering the next generation to make a stand for a more sustainable life in the future.
