

Guidance for buyers

1. Locating the service

Find the service listed in the table below to see the relevant pricing model.

Where the amount of work a task can be reasonably estimated, we have entered fixed prices.

The amount of work a task takes will often vary according to the size of the organisation and the complexity of its business operations. It is for this reason that some services require a scope of work document, where the client defines their requirements for the project work undertaken

2. Discount rates

Discount rates where appropriate are listed in the pricing model

3. Pricing

All prices quoted are ex-VAT

4. Standard for consultancy day rate cards

Working hours, and expense rates are defined in the DLP Assured SFIA card.

Service	Pricing Model
