**NHS *Serv* Is a unique SMS solution to replace the messaging capabilities being discontinued in NHSmail.**

**The NHS *Serv* platform integrates seamlessly and easily with existing appointment handling software via API. We can help you with integration. You can also send SMS via email, which is already built in.**

**NHS *Serv* is already becoming the solution of choice for many Hospitals, NHS Trusts and local Surgeries in the United Kingdom. NHS *Serv* includes technologies taken directly from our PROTECT platform, which is trusted by many governments, embassies and international bodies globally.**

**The system is available now via G-Cloud and the Digital Marketplace.**
