## G-Cloud - Aspire

### Pricing Document

Please refer to the Service Definition for details of the packages available.

The Aspire Standard G-Cloud Service is available as:

- Aspire Private Cloud (an on-premise, or separately procured, private cloud).

### Aspire

The below pricing is based on a minimum 36-month contract and term, and is based on a per workstation, per month basis. There is no limit to the number of users that can be created on the platform.

Number of workstations	Aspire Core (price per workstation per month)	Aspire Advanced (price per workstation per month)
10 to 39	£380	£429
40 to 79	£201	£222
80 to 159	£150	£166

If you require more than 159 workstations, please contact NEC for further details.

The pricing above is based on the number on a single Aspire system. Should there be a requirement for additional systems, for example, Training and Test systems, please contact NEC for more details.

#### Initial cost includes

- Yearly Subscription:
  - ➔ Licensing
  - ➔ Software Support (as per detail within the service description and T&Cs).

#### Other costs that will be charged as per the NEC SFIA rate card are:

- Professional Services will be required based on SFIA rate card to support onboarding, installation, commissioning and training. Estimates can be provided on request.
- Onboarding service cost (for example, connecting with Telephony, other third party integrations). Costs will be determined during onboarding based on the SFIA rate card.

#### Not included in the pricing:

- The pricing provided exclude all workstation hardware and hardware support. Quotes for these can be provided upon request.
- Any hosting platform cost and networking cost are subject to discussion and quoting during onboarding.
- Operating system and third party licensing for any on-premise system components is excluded.
- Costs of service for migration to any other service provider are excluded.
