

## TCS Pricing Document – DigiGOV™ Smart City

The TCS DigiGOV™ Smart City pricing is provided below.

Number of Users	Component	Price (£)
Up to 1,000 users	Service Charges (Per User Per Month)	30

*Note: If the number of users is greater than 1000, then please contact TCS for a quotation.*

### Pricing considerations

- All prices are in Pounds Sterling (£) and exclusive of VAT
- Prices comprise of provision of a Production environment with DR and Backup of seven days. Any further environments which need to be provisioned will be identified during due diligence and may attract additional cost
- The proposed pricing is to support 200 concurrent users and a yearly data storage of 1TB
- The price is valid for services awarded to TCS in accordance with the scope, duration and volumes stated in the Service Definition. If any of the scope elements are to change, there will be a corresponding impact on the price
- Any delay in implementation of the project beyond projected time period and/or due to reasons that are not attributable to TCS shall follow a change control process and may incur revisions to the offering.
