& SFIA RATE CARD**

P PatientSource SaaS solution Pricing

PatientSource is a continually evolving modular digital health solution.

Clients can elect to take individual modules for augmentation into their existing digital health ecosystem or the full module suite into a 'green field' site.

Our solution is adept as a whole hospital solution or very focused functionality such as electronic observations or electronic prescribing and medicines administration solution.

We offer charity and NGO discount pricing.

With such a high degree of solution configurability, we apply a bespoke and customised approach to solution pricing, giving a range of between £15,000 and £1,000,000 pa.

Pricing quotations are supplied on request and after detailed consultation.
