Specialist Support On-Demand

As an established partner to the public sector, through our managed service offering we understand the nuances of working with contingent workers. Whether that's leveraging an agile workforce across large-scale transformation programs or responding to challenging project requirements, we've developed our Specialist Support On-Demand service to ensure our partner's projects and programs are delivered without disruption, and with the right specialists on-site.

IR35 Compliance	Reduce time to hire by up to 75% by using a strategic partner with on-demand capability inside a 10-day SLA
Speed to Hire	Remove the administrative burden of compliance and audit risk by using our non-headcount managed service
Associated Cost	With dashboard reporting, capped pricing and progress checks, you stay in control of your spend
Quality Measures	With instant access to a vetted network of proven specialist consultants, they'll be delivering from day one

Why Concept?

A strategic
delivery partner

Flexible call-off
contracts

Non-head count
managed service

Resource planning
to forecast demand

Reporting suite to
measure progress

Agile, scalable,
on-demand
