- Improved utilisation of resources drive efficiencies and cost savings
- Plug and Play capability, scaling services to meet demand
- Real-time progress reporting to control costs
- Knowledge Transfer and mentoring
- Intermediaries Legislation (IR35) compliant Managed Service

# Specialist Support On-Demand

As an established partner to the public sector, through our managed service offering we understand the nuances of working with contingent workers. Whether that's leveraging an agile workforce across large-scale transformation programs or responding to challenging project requirements, we've developed our Specialist Support On-Demand service to ensure our partner's projects and programs are delivered without disruption, and with the right specialists on-site.

<b>IR35 Compliance</b>	Reduce time to hire by up to 75% by using a strategic partner with on-demand capability inside a 10-day SLA
<b>Speed to Hire</b>	Remove the administrative burden of compliance and audit risk by using our non-headcount managed service
<b>Associated Cost</b>	With dashboard reporting, capped pricing and progress checks, you stay in control of your spend
<b>Quality Measures</b>	With instant access to a vetted network of proven specialist consultants, they'll be delivering from day one

# Why Concept?

A strategic  
delivery partner

Flexible call-off  
contracts

Non-head count  
managed service

Resource planning  
to forecast demand

Reporting suite to  
measure progress

Agile, scalable,  
on-demand
