

#CloudFutures Specialist Cloud Services

Pricing

We provide a simple effort based pricing structure as set out in the Skills For the Information Age (SFIA) Rate Card. We will work with you to define the requirements and jointly agree the right approach to be applied in the Call Off Terms. Engagements can be on a fixed price monthly service, or as outcomes based statements of work, or on a time & materials basis.

We follow the standards set by the Framework Agreement for Consultancy Day rate. Our SFIA rate card, reproduced below, shows the charges for our **#CloudFutures Specialist Cloud Services**.

Each engagement will be assessed against current legislation and rates are shown for engagements both outside and inside IR35. All rates shown are exclusive of expenses and VAT.

#CloudFutures Specialist Cloud Services
