### Pricing for Primary Care Data Quality Assurance (May 2024)

---

PRIMIS completes quality assurance of the data extractions from GP systems suppliers (GPSS) exercises to ensure that the audit tools produce robust information from each of the GPSS systems. Each requirement is discussed with the potential customer, scoped and priced appropriately.

Costs will include agreeing the scope of the validation exercise, completion of the exercise, assessment of the output and production of the report that accompanies it plus QA and project management. Costs can include recruitment of practices to participate in the validation exercise or if preferable, the client can manage that process. Responsibility for ongoing practice liaison will be agreed.

Prices are based on our published day rates and are exclusive of VAT and out of pocket expenses.  
[Please refer to PRIMIS Standard Rate Card]

Prices are subject to annual increase in line with the RPI rate of inflation.
