

G-Cloud Price Model for Master Data Management

itelligent-i deploy Master Data Management (MDM) from multiple vendors. This document contains individual day rates that may be used depending on the MDM implementation and its complexity for deploying an MDM project with Microsoft Azure.

itelligent-i has agreed rates with MDM vendors for use with itelligent-i's Data and Analytics Platform (iDAP) which includes Microsoft Azure Synapse and other data services. MDM is procured with itelligent-i's support, please consult if you have an interest in MDM platform pricing, and total project costs.
