

About SVGC

SVGC is a privately owned, independent international systems and digital engineering consultancy serving defence, government and security markets, comprised of permanent and associate SME staffs, which has been operating successfully for over 26 years in the UK and internationally.

With a focus on collaborative, analytical capabilities for senior decision makers, **SVGC** believes in harnessing the power of advanced digital capabilities to help clients manage complex programmes from concept through service to disposal.

SVGC core strengths are in;

- Capability & Decision Management for Acquisition Support
- Data Sciences including AI driven Data Analytics
- Requirements Management using Dimensions RM
- Programme, Portfolio, Project Management
- Systems Engineering

At the heart of our approach is an unparalleled focus on clients' requirements and working collaboratively with Buyers and other suppliers to deliver cost-effective services.

Supporting government archiving; undertaking a Digital Sensitivity Review (DSR) using state of the art digital redaction solutions.

With over 26 years experience within defence, government and security, **SVGC** is fully compliant to ISO 9001, 27001 and Cyber Essentials certified PLUS.

Collecting, collating and analysing large volumes of government data from diverse sources into a centralised reporting dashboard for analysis to support critical decision making.
