PROGRAMME & DELIVERY MANAGEMENT
TERMS AND CONDITIONS

Is poor programme management causing a strain on your business?

We know that inexperienced or under-pressure staff can sometimes contribute to mistakes being made which can threaten project deliverables and run a project into trouble.

SVGC have over 26 years' experience in effective Programme and Delivery Management, managing and supporting all phases of the project life cycle. We are highly adept at managing projects and introducing effective working practices to meet the specific needs of individual programmes.

We provide a full range of cost-effective Programme Management services including:

- Project Managers' Expertise – either integrated into the organisation or as part of an independent programme or project team
- Project Planning - the complete W5H detail
- Waterfall, Agile and hybrid approaches, programme depending
- Financial Management - estimating, costing and analysis
- Understanding of MoD CADMID funding cycles approval
- Metrics based benefits realisation and monitoring
