\*Existing Kineo Totara clients can use their existing support service at no additional cost

## Additional services (optional)

When you start using Adapt Authoring Tool, we'd be pleased to offer the following:

- Exemplar course creation
- Advanced learning design training
- Learning asset creation
- Import of existing content

Please talk to us and we'd be pleased to provide costs based on your specific requirements.

## Notes and assumptions

- Regular application updates and patches will be applied to the AAT/hosting environment
- Major, minor and patch releases of the Adapt Framework will be applied to the sites on a regular basis. We ensure that minor and patch releases are fully backward compatible with the core Adapt plugins and a published subset of Kineo plugins. We cannot guarantee that these updates will work with third party plugins or the full set of plugins on the Kineo GitHub
- Clients are not able to update either the core framework or the AAT application or plugins; if there is an issue please contact the Kineo support team
- Support service included as standard does not cover training in AAT or any other software (such as Photoshop)
- Where a support agreement is in place, support issues will be raised by the client's named site administrator via the Kineo support portal
- The client is responsible for managing user access to the tool and ensuring that they follow their organisation's best practice when managing users and access
- VAT and expenses are excluded
