

Adapt Authoring Tool Service Description

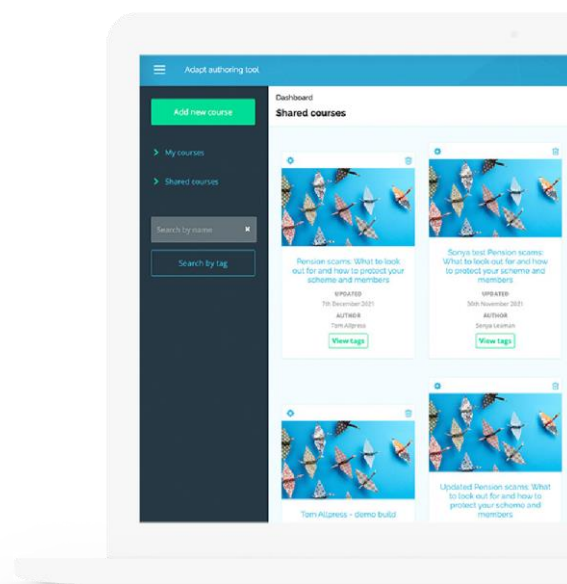

MAY 2024

Create beautiful elearning with Adapt Authoring Tool

Kineo Adapt Authoring Tool (AAT) enables you to author fully accessible, responsive elearning, powered by the Adapt Framework via an intuitive and simple-to-use interface. It's a 'web app', which you access via your web browser. Building, previewing and publishing content is hassle-free, seamless and simple via our Kineo cloud-based service.

When Kineo released Adapt as an Open Source (and free!) technology, we were keen for the wider learning industry to benefit from this amazing technology, allowing for accessible, device-independent and fully responsive elearning.

The technology has continued to evolve since Kineo first released it back in 2012, particularly with the creation of **Adapt Authoring Tool**, which puts the technology directly into the hands of content creators via an easy-to-use and intuitive authoring environment.

Kineo Features

Fully featured elearning authoring environment

Powered by Adapt, AAT enables you to create beautiful and fully responsive xAPI & SCORM compliant elearning inhouse

Cloud based

Access your content on the move and collaborate with colleagues

Open Source

Both the Adapt Authoring Tool and the Adapt Framework are built, maintained, and enhanced by the Adapt Open-Source community

Accessible

AATN supports WCAG 2.2 AA & Section 508 compliant content creation

Short of time? No problem!

Reach out to the Kineo team and we can support you

Kineo Benefits

Enhanced/extended functionality

With Kineo's AAT service you'll have access to Adapt community plugins, as well as a range of Kineo's added-value plug-ins. Kineo's proprietary plugins include: Advanced diagnostic assessments, Multi-lang selection, Branching Scenarios and Content personalisation

Kineo: Your learning technology partner

- Work collaboratively on a course – or keep it to yourself until it's good and ready
- Create your own course look and feel using the in-tool theme creation
- Preview and publish content with a single click
- Review and revise content whenever you need
- Create content that meets WCAG 2.2 AA and Section 508 requirements
- Choose from a catalogue of more than 50 plugins that can be added through the tool
- Embrace an active and engaged community for help and advice
- Constantly evolving product, bringing powerful new features in response to market need
- Catalogue, curate, search and share graphics and media through via the asset manager

What we provide

- We can train you up in AAT, so you're fully up to speed and ready-to-author
- We can create your beautiful theme, ready for you to create and publish your courses in-house (or we'd be happy to author them on your behalf using our talented team of learning designers, graphic artists and quality assurance)
- We'll host and maintain AAT for you, including implementing patches and maintenance releases and version upgrades
- If you're hosted on our Kineo Totara platform, then you'll additionally benefit from one-click publishing to Totara via our unique Kineo-Adapt Totara plugin
- Ongoing support is available via our dedicated support specialists
