About HTG

25 years of experience

HTG's 25 years of industry experience mean that we've seen it all, and know what's coming. So, we promise to guide our clients along a clearly-defined digital roadmap with ambitious goals in mind.

Microsoft Experts

As Azure Virtual Desktop Advanced Specialists and Gold-accredited Microsoft partners, we are perfectly positioned to build your dream digital workspace.

Secure Cloud Experts

HTG is your secure cloud expert. With virtual desktops in the cloud, we fast-track secure remote working for your organisation.

Who we help

From financial data breaches to government rollouts and getting students online, we have the expertise and partnerships necessary to protect and empower your organisation.

HTG by the numbers

25+ years of in-depth expertise
150+ accreditations and awards
300K+ end-users
4 offices with global reach

Leading vendors

We value our technology partners - including giants in the field, Microsoft, Citrix and VMware - and they give us insider knowledge that we build into our plans and processes.

Pricing

Professional Services

All HTG professional services are priced based on the SFIA Rate Card. HTG's SFIA Rate Card is available to download from this service portfolio offering. The actual effort required to complete this service will be agreed upon with the buyer, based on scope, complexity and estimated timeframes to complete.

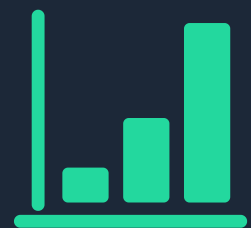

Combined Services

Should a buyer wish to purchase multiple G-cloud services from HTG as part of a programme of activities, HTG will work with the buyer to align the scope of all services into a single pricing document based on HTG's SFIA Rate Card.

General Information

All prices quoted will be in pounds sterling (GBP) and exclusive of VAT. All HTG day rates are inclusive of reasonable out of pocket expenses, with no weighting applied to London.

Volume Discounts

Volume discounts are not applied to HTG's SFIA Rate Card. Where there are multiple services purchased to complete a specific programme, any volume discounts on HTG's day rates will be subject to mutually beneficial negotiation and agreed upon prior to services being purchased.
