

Digital Strategy & Consultancy Services

Pricing Template

Morson Edge's services are priced by a common set of rates tables, based on the Skills for the Information Age (SFIA) Definitions & Rate Card, as demonstrated below. This table articulates day rates for consultants of different levels of experience undertaking various types of roles in different types of projects. Further details can be provided if required, but we would normally expect to agree what level of supporting resource(s) were required for a given project with a customer, which will enable us to determine what rate(s) are appropriate.
