CREDERA OVERVIEW

Credera is a digital consultancy that helps leading brands unlock extraordinary results

We help our clients across five main areas

STRATEGY

We help organisations to build a strategy that delivers them the results they need to create and sustain their competitive advantage

TRANSFORMATION

We help organisations change the way they succeed in operations, technology, strategy, and innovation to ignite business results

CLOUD

We help organisations to harness the benefits of the cloud, to enable tangible business outcomes, through strategy, architecture, delivery, and optimisation

DATA

We help organisations transform the way they work by exploiting the power of their data and applying practical data approaches

ENGINEERING

We help organisations to deliver technology platforms, taking a holistic approach that addresses tech, process, and structure to make a lasting impact

Our teams bring deep capabilities in five core disciplines and many of our client engagements span multiple areas of focus

CAPABILITIES

Credera's capabilities span the disciplines of management consulting, user experience, data, AI and technology solutions

MANAGEMENT CONSULTING

We partner with clients to define and implement strategies and modern operating models that enable high performance and sustainable growth.

eCOMMERCE

We help our clients go beyond a functioning consumer website by leveraging a dynamic strategy, robust implementation, and actionable optimisation.

INNOVATION

We help companies to innovate better by applying a structured approach that spans the stages of the innovation journey.

AI

Our proven offerings dramatically accelerate our client's journey to building a data culture.

EXPERIENCE DESIGN

We craft distinctive experiences that connect our clients to their customers so both sides better understand each other and achieve their goals efficiently.

CLOUD

We help clients plan their cloud journey, build cloud-native solutions, transform operating norms, modernise and optimise apps, and prepare teams to support it.

MARTECH

We help our clients implement, customise, and activate technology that powers profitable and harmonious cross-channel experiences.

DATA

We help clients capture and refine their data to optimise business value through improving efficiency and accelerating decision making.

OUR GLOBAL PARTNERSHIPS

We partner with leading platforms and providers

Our global partnerships industrialise our consulting offering and accelerate our clients' dynamic customer experience (DCX) ambitions

OUR EXPERIENCE

We bring deep public sector experience

Our team has helped organisations of all sizes across the public sector with initiatives spanning strategy, transformation, cloud, data, and engineering

	Implementing Adobe Journey Orchestration
	Adobe Target Run-and-Operate Personalisation
	Adobe WebSDK First Party Data Preservation

Innovation and Prototyping

Our four-stage approach helps organisations innovate within the context of the business and IT area. We provide a structured method to complex problem solving, resulting in IT accelerated solutions via MVP and prototypes that are measured for value and ability to scale within organisations.

Features

- Business and IT team integration
- Clear problem articulation
- Innovation workshops
- Divergent thinking is used to define as many solutions as possible
- Convergent thinking identifies viable solutions for further investigation
- Sketches/lo-fi creations to visualise solutions
- Applied innovation
- Design Thinking
- Ideation Backlog for items to be prototyped

Benefits

- A clearly defined problem
- Alignment within business and IT members towards a single goal
- Divergent and convergent thinking help ideate less obvious solutions
- Viability, feasibility and desirability of solution assessed through lo-fidelity prototyping
- Clear set of collectively agreed upon solutions to be pursued
- Value-led applied innovation
- MVP and prototypes for testing
- Iterative experimental approach used to minimise overall business impact
- Stakeholder alignment in vision of product and its strategic fit
- Increased confidence in new customer offerings

Innovation for Prototyping

SERVICE DEFINITION

OUR PERSPECTIVE

- We see prototyping as a critical step in the innovation process, providing a fast, tangible way to test and refine ideas before full-scale production. Rapid prototyping brings to life ideas to gain insights and validate assumptions at the earliest opportunities.
- Great innovation happens when you combine design thinking and a structured process.
- Structure unlocks the power of creativity.

SERVICE PURPOSE AND OBJECTIVES

- The service is designed to validate concepts and ideas through rapid prototyping, assessing feasibility, desirability, and viability before investing significant resources into full-scale development.
- This service commits to mitigating risks associated with innovation by identifying and addressing potential challenges early in the development process, resulting in more successful and sustainable innovations.

OUR APPROACH

- We take a structured approach to innovation, combining design thinking with a systematic process to unlock the “power” of creativity.
- Our process involves four steps: identifying what to pursue, ideating solutions, incubating promising solutions, and iterating.
- We leverage proprietary tools like Omni and Sparks & Honey’s Q to gain user insights.

OUR CAPABILITIES

- We help companies at all stages of the innovation process, from strategy to execution.
- We have developed nine specific market offerings in the innovation space.
- We offer 3 "quick start sprints" to deliver value to new clients in less than six weeks.

OUR EXPERIENCE

- We have deep experience helping companies conduct design sprints to prototype new products or services and test them with consumers before implementing them.
- The creative experience, including innovation workshops, design thinking principles, and entire operating model immersive visualisations, is a co-creation process that leads to value-driven solutions that can be rapidly realised.

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: Humility, Tenacity, Excellence, Integrity and People First, which guide our every decision, underscoring our dedication to ethical business practices and client service.

OUR CULTURE

Our consultants are qualified beyond their specialisms

Achieving accreditations plays a big role in ensuring our consultants are well equipped for any challenge

75%
CLOUD CERTIFIED

With certifications spanning Azure, AWS, GCP, Adobe, Pega, Salesforce, etc.

84%
DIGITAL CERTIFIED

Including certified SAFe Practitioners, Scrum Masters, and Product Owners

46%
DATA CERTIFIED

Ranging from architecture, modelling, analysis, and visualisation

Additional Information

PRICING

This service is priced in accordance with the SFIA rate card provided and can be modelled using a range of commercial approaches e.g. time & materials, fixed price, risk/reward and velocity based, etc.. Please refer to our pricing document for more information.

ORDERING/INVOICING

Unless otherwise agreed in the proposal, all fees and charges associated with the engagement will be invoiced monthly in arrears. Invoices shall be paid by the client within thirty (30) days of the date of the invoice.

ONBOARDING / OFFBOARDING

Credera's cloud support services can be ordered by contacting our team via the detailed given in the 'Contact Us' section of this document. Clients can terminate their engagement with us with 30 days' notice.

Additional Information

CONSUMER RESPONSIBILITIES

Consumer responsibilities are closely aligned with the specific requirements of the engagement. As such, these responsibilities must be discussed and agreed upon with the customer before the engagement begins. All responsibilities are clearly outlined in the call-off contract/order form.

TECHNICAL REQUIREMENTS

The technical requirements and dependencies for the services offering under G-Cloud 14 are tailored to each individual call-off. It is essential to discuss and agree on these details with the customer before the engagement commences.

SERVICE CONSTRAINTS

There are no constraints to this service. We work collaboratively with our clients to identify their needs.

TRAINING

Credera strives to facilitate a seamless transfer of knowledge and skills from our consultants to our clients' teams, ensuring an effective and beneficial learning experience.

The Credera Difference

Working with the right partner is crucial to program success. At Credera, consulting is not just solving a tough problem or creating growth, it's that and so much more.

Our clients consistently tell us that working with Credera feels different. Our collaborative approach leaves them feeling empowered, supported, and secure and makes tackling challenges together enjoyable.

That's the Credera Difference.

“

Excellent engagement with experienced people providing good quality guidance and advice, responding to changing situations quickly and effectively, and producing substantive materials for us to build on.

Stuart Moore

Head of Crown Hosting,
HMRC

“

Credera's advice, professionalism and collaborative ways of working over a three-year period have been instrumental to the successful delivery of this major transformation programme.

John Quinn

COO, Government of Jersey
