CREDERA OVERVIEW

Credera is a digital consultancy that helps leading brands unlock extraordinary results

We help our clients across five main areas

STRATEGY

We help organisations to build a strategy that delivers them the results they need to create and sustain their competitive advantage

TRANSFORMATION

We help organisations change the way they succeed in operations, technology, strategy, and innovation to ignite business results

CLOUD

We help organisations to harness the benefits of the cloud, to enable tangible business outcomes, through strategy, architecture, delivery, and optimisation

DATA

We help organisations transform the way they work by exploiting the power of their data and applying practical data approaches

ENGINEERING

We help organisations to deliver technology platforms, taking a holistic approach that addresses tech, process, and structure to make a lasting impact

Our teams bring deep capabilities in five core disciplines, and many of our client engagements span multiple areas of focus

CAPABILITIES

Credera's capabilities span the disciplines of management consulting, user experience, data, AI and technology solutions

We partner with clients to define and implement strategies and modern operating models that enable high performance and sustainable growth.

eCOMMERCE

We help our clients go beyond a functioning consumer website by leveraging a dynamic strategy, robust implementation, and actionable optimisation.

We help companies to innovate better by applying a structured approach that spans the stages of the innovation journey.

Al

Our proven offerings dramatically accelerate our client's journey to building a data culture.

EXPERIENCE DESIGN

We craft distinctive experiences that connect our clients to their customers so both sides better understand each other and achieve their goals efficiently.

CLOUI

We help clients plan their cloud journey, build cloud-native solutions, transform operating norms, modernise and optimise apps, and prepare teams to support it.

We help our clients implement, customise, and activate technology that powers profitable and harmonious crosschannel experiences.

DATA

We help clients capture and refine their data to optimise business value through improving efficiency and accelerating decision making.

OUR GLOBAL PARTNERSHIPS

We partner with leading platforms and providers

Our global partnerships industrialise our consulting offering and accelerate our clients' dynamic customer experience (DCX) ambitions

OUR EXPERIENCE

We bring deep public sector experience

Our team has helped organisations of all sizes across the public sector with initiatives spanning strategy, transformation, cloud, data, and engineering

Machine Learning Model Development and Deployment (MLOps)

Credera provides consulting, architecture, and engineering services in Machine Learning, covering both model development and rollout at scale within an enterprise environment. We help you adopt a best-practice framework for your in-house Data Science and MLOps functions that aligns with business drivers, supports rapid prototyping, and delivers measurable ROI.

Features

- Model lifecycle review
- ML Operating Model design and implementation
- Model prototyping and Proof of Concept development
- MLOps pipeline assessment
- Tools evaluation and deployment
- Continuous integration/deployment
- Accurate and reliable model monitoring, training, and scaling

Benefits

- Improved actionable insights
- Ability to convert lagging to leading indicators
- Fit-for-purpose pipeline
- Optimising model efficiency and resource utilisation
- Enhanced model accuracy and performance

Machine **Learning Model Development** and Deployment (MLOps)

MLOps standardises machine learning lifecycle development, enforces controls, and **OUR** responds effectively to the needs of regulated industries. This approach ensures that machine learning projects are scalable, reproducible, and compliant with relevant **PERSPECTIVE** standards. • Our purpose is to advocate for robust enterprise platform capabilities specifically tailored for MLOps, ensuring that these platforms meet the highest standards of compliance, security, and operational efficiency. **SERVICE** Our primary objective is to automate controls, codify processes, and integrate a **PURPOSE AND** streamlined DevOps pipeline tailored for MLOps to enhance efficiency and ensure compliance across various industry use cases. **OBJECTIVES** We strongly advocate for standardising MLOps processes to ensure they align with regulatory requirements and industry best practices, enhancing the security and compliance of machine learning applications. We implement a DevOps pipeline tailored for MLOps, incorporating automation and codified controls to boost efficiency and compliance. Our cross-functional teams work collaboratively to deliver comprehensive MLOps **OUR** solutions that address the specific needs of regulated industries, ensuring that every **APPROACH** aspect of machine learning lifecycle management is covered. We provide expert guidance on integrating MLOps into existing workflows, leveraging our deep compliance, security, and operational efficiency knowledge to ensure successful implementation. • We possess extensive MLOps and DevOps pipeline integration expertise, focusing on compliance, security, and operational efficiency to ensure that machine learning projects **OUR** deliver expected outcomes without compromising regulatory obligations. **CAPABILITIES** Our team specialises in automating controls and codifying processes within the MLOps framework to streamline operations and reduce the potential for human error. • We have successfully implemented MLOps frameworks in various regulated industries, **OUR** ensuring that machine learning initiatives comply with stringent regulatory standards 13 while enhancing efficiency and security.

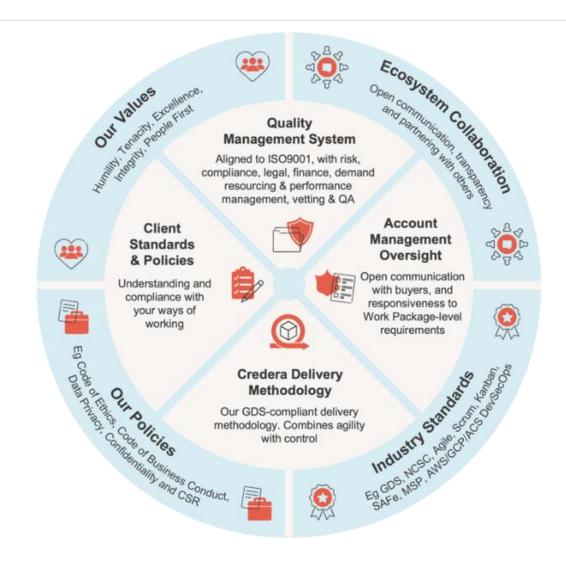

Credera Operational Framework

Our operating framework is designed to uphold the highest standard of excellence across all aspects of our engagements. We ensure superior quality assurance through performance evaluations and integrated client feedback. Our account management processes are built on a deep understanding of our clients' needs, ensuring a personalised service and sustained engagement. Our delivery methodologies are rooted in efficiency and adaptability, utilising our deep experience and best practices to achieve timely and successful outcomes.

We adhere to strict standards and policies to maintain integrity and reliability, whilst our commitment to ecosystem collaboration enhances our ability to leverage diverse insights and expertise across industries.

Central to our approach are our core values: Humility, Tenacity, Excellence, Integrity and People First, which guide our every decision, underscoring our dedication to ethical business practices and client service.

OUR SERVICES / DATA

Exploit the power of your data

We make organisations faster, smarter, and more efficient in their decisions by helping them reimagine their business problems in ways that apply data and algorithms to outmanoeuvre competitors

OUR CULTURE

Our consultants are qualified beyond their specialisms

Achieving accreditations plays a big role in ensuring our consultants are well equipped for any challenge

75% CLOUD CERTIFIE

With certifications spanning Azure, AWS, GCP, Adobe, Pega, Salesforce, etc.

84%

DIGITAL CERTIFIED

Including certified SAFe Practitioners, Scrum Masters, and Product Owners

46%
DATA CERTIFIED

Ranging from architecture, modelling, analysis, and visualisation

Additional Information

PRICING

This service is priced in accordance with the SFIA rate card provided and can be modelled using a range of commercial approaches e.g. time & materials, fixed price, risk/reward and velocity based, etc.. Please refer to our pricing document for more information.

ORDERING/INVOICING

Unless otherwise agreed in the proposal, all fees and charges associated with the engagement will be invoiced monthly in arrears. Invoices shall be paid by the client within thirty (30) days of the date of the invoice.

ONBOARDING / OFFBOARDING

Credera's cloud support services can be ordered by contacting our team via the detailed given in the 'Contact Us' section of this document. Clients can terminate their engagement with us with 30 days' notice.

Additional Information

CONSUMER RESPONSIBILITIES

Consumer responsibilities are closely aligned with the specific requirements of the engagement. As such, these responsibilities must be discussed and agreed upon with the customer before the engagement begins. All responsibilities are clearly outlined in the call-off contract/order form.

TECHNICAL REQUIREMENTS

The technical requirements and dependencies for the services offering under G-Cloud 14 are tailored to each individual call-off. It is essential to discuss and agree on these details with the customer before the engagement commences.

SERVICE CONSTRAINTS

There are no constraints to this service. We work collaboratively with our clients to identify their needs.

TRAINING

Credera strives to facilitate a seamless transfer of knowledge and skills from our consultants to our clients' teams, ensuring an effective and beneficial learning experience.

The Credera Difference

Working with the right partner is crucial to program success. At Credera, consulting is not just solving a tough problem or creating growth, it's that and so much more.

Our clients consistently tell us that working with Credera feels different. Our collaborative approach leaves them feeling empowered, supported, and secure and makes tackling challenges together enjoyable.

That's the Credera Difference.

Excellent engagement with experienced people providing good quality guidance and advice, responding to changing situations quickly and effectively, and producing substantive materials for us to build on.

Stuart Moore

Head of Crown Hosting, HMRC

Credera's advice, professionalism and collaborative ways of working over a three-year period have been instrumental to the successful delivery of this major transformation programme.

John Quinn

COO, Government of Jersey

Contact Us
