

Project and Programme Assurance

4OC's Project and Programme Assurance measures the likelihood of programme success. We perform an internal, independent review to assess: how effectively an operation's current activities are structured and managed; stakeholder and customer connectedness; how cloud technology supports service delivery; and how these elements connect to deliver the organisation's strategic objectives.

Features

- ➡ Programme governance, business readiness, programme controls, communications, resource management, benefits
- ➡ Rapid assessment aligned to APM project management methodology, Agile, Waterfall
- ➡ Robust, facilitated stakeholder engagement capturing comprehensive risk landscape and mitigations
- ➡ Stage-gated project to ensure delivery is tightly managed and avoids slippage
- ➡ PMPR: Project Management Progress Review meetings
- ➡ Health, Local/ Central Government, Transport, Social Housing, Higher Education
- ➡ Knowledge transfer, capacity and capability building, upskilling
- ➡ Reusable tools, techniques, methodologies and templates
- ➡ Social value add embedded for sustainable change
- ➡ Combines business, technical and commercial views to deliver holistic analysis and solution design

- ⌚ Cost, scope and outputs certainty for fixed price work
- ⌚ Increased agility, collaboration and scalability
- ⌚ Expert liaison between diverse teams and organisational departments
- ⌚ Knowledge of and experience with public, private and third sector transformation

Who are we?

4OC is a business change and technology consultancy with years of experience in delivering high-value, successful projects. We bring pace, agility and a range of evidence-based, proprietary approaches and methods to every one of our delivery projects to drive value.

We have skilled and experienced teams that combine recognised best practice and innovative techniques to enable you to get the most out of your data and your people. We develop and implement solutions to drive operational efficiency and support this with expertise in organisational development, performance management, culture change, and programme delivery.

Lastly, everything we do is viewed through a lens of economic, social and environmental value. This ensures that the design and embedded new ways of working contribute to the wider organisational purpose and societal benefit.
