Thank you for considering i3Works

As an established, dynamic and growing SME management consultancy, i3Works has extensive experience of working across all tiers of government and within highly regulated industries to deliver successful outcomes across our P3M, Project Controls, Digital, Business Change and Service Management engagements.

Our service catalogue continues to evolve and map to the Digital, Data and Technology (DDaT) Capability Framework as well as complying to the GDS functional standard for the creation of digital services. This enables us to bring the more traditional skills of planning, controls, project and programme management in an Agile manner to support our customers in achieving successful outcomes from their cloud and wider digital transformation initiatives.

Our capability for delivering high-profile digital, comms and technology-centric management and support solutions across the government spectrum is how we are best known, but that isn't our sole focus. Our record speaks for itself: we successfully deliver commissions requiring P3M, planning, strategy and delivery along with related functions.

When we work with you, you get far more than a consultancy. Our values of innovation, inspiration and integrity are underpinned by exceptional levels of industry knowledge, management and leadership experience, and a flexibility that allows us to hit the ground running and embed change within the digital projects, programmes, and portfolios to which we are assigned. Our people work alongside yours, developing strategy, providing challenge and advice, and putting in the hard graft on the frontline where needed.

Our teams consist of a diverse range of talented, highly qualified, and driven colleagues trained in a multitude of recognised management techniques. Our understanding of the theory is evidenced by a range of qualifications, from MBAs through to Registered Project Professionals (APM), Chartered Professionals (ChPP) and Chartered Engineers (CEng). Most importantly, we have a proven track record showing how capable we are at putting the theory into practice. We understand how to implement the right processes, when to adapt them, and when to try something new, so that we can deliver effective and efficient solutions tailored to the specific demands of our clients.

As an SME we pride ourselves on our ability to be agile and flexible – our 'can do' attitude is ingrained in our people. We provide the high-level strategy and leadership, but we also embed ourselves as part of your team or service, working both for you and alongside you. Our ability to integrate and adapt has been the cornerstone of our success so far, and it's why we retain so many clients. In essence, they trust us to deliver, regardless of size, complexity, or duration.

If you need P3M, digital strategy, leadership, advice, or support, get in touch. No matter your requirements, you can be sure of one thing: **i3Works...works.**

About our i3NetZero team

Our i3NetZero team

We pride ourselves on a team of highly skilled professionals, each contributing a wealth of expertise in various domains of Climate Security, ESG, and Sustainability. The team includes experienced project managers, strategists, analysts, and policy experts, all dedicated to providing top-tier consultancy services.

In this rapidly changing world, climate change, environmental impact, social responsibility, and sustainable practices are critical considerations for all governments, ministries, companies and organisations.

Through our advisory services and support for sustainable transformation programmes, we deliver experienced agile management, scientific expertise, data-driven insights and innovative technological and strategic solutions.

Our approach addresses government requirements to meet climate challenges and social value, international standards, policies and ESG guidelines, and companies' sustainability and climate objectives, reporting and regulatory requirements.

We are experts in:

- Sustainable Technology
- Climate Risk & Resilience
- ESG Analyses, Audit & Assurance
- Net Zero & Energy Transition
- Circular Economy & Value Chain

What we can do for you

We are a trusted partner across climate security, ESG, and sustainability initiatives, providing reliable enhanced services for government, corporations and international organisations.

Our Experience

Our Climate Security, ESG and Sustainability expertise and experience spans across a wide variety of sectors, including energy, construction, public service operating models, Defence equipment, and digital, data and technology (DDAT).

MOD Cloud Delivery Partner to Strategic Command's Defence Digital Defence Digital

- Consolidated and transitioned older hosting environments within the MOD's Defence Digital.
- Transitioned hosting environments to newer, cloud-based, green solutions, achieving significant carbon reduction outcomes and reducing the environmental impact of MOD's digital infrastructure.

Facilitating a Circular Economy Approach to the Safe and Effective Decommissioning of Submarines Submarine Delivery Agency (SDA)

- Implemented circular economy methods for sustainable submarine decommissioning, cutting waste and enhancing recycling.
- Delivered a programme of works to enable recycling and component reuse for new submarines.

Change Control Request Assurance for Magnox Life-Time Plans Nuclear Decommissioning Authority (NDA)

- Managed and assured Change Control Requests (CCR) to repair near-term elements of the Magnox Life-Time Plans (LTP), ensuring alignment within a minimum 2-year planning horizon.
- Ensured strict adherence to regulatory requirements, ensuring compliance while facilitating the NDA's mission of safe and effective nuclear facility decommissioning.

3	Apply	Consultant	£660
4	Enable	Senior Consultant	£770
5	Ensure/Advise	Principal Consultant/SME	£910
6	Initiate/Influence	Managing Consultant	£1075
7	Set strategy/inspire	Associate Director	£1210

Standards for consultancy day rate cards

- **Consultant's Working Day** 8 hours exclusive of travel and lunch.
- **Working Week** Monday to Friday excluding national holidays.
- **Office Hours** Assumed 9am to 5pm, but flexible to client requirements.
- **Travel and Subsistence** Included in day rate within 30 miles of i3Works office locations (Bristol and London), payable at client's T&S rates outside of this.
- **Professional Indemnity Insurance** Included in day rate.

Note: Rates are exclusive of VAT, which will be charged at the prevailing rate

Service Levels

- Our consultants are qualified in: PRINCE2®, APMG® Change Management, IAM® Accelerated Implementation Methodology, AgilePM®, APMP®, PPC®, MoR®, RPP®, Better Business Cases™, MBAs, Agile SAFe®, Lean®, Primavera P6, MoP®, MSP®, MoV® and various other professional qualifications
- Our team includes Fellows and Members of the Association of Project Management
- We provide permanent staff as standard, but these can be supplemented by our world-class associate pool for specific sector expertise and practical domain knowledge
- We also work closely with an extensive range of renowned partners – including BOXARR and Hyde Park Solutions – who add their expertise and capacity to our own to provide the best service possible for our clients

Quality in our Service

- We are accredited to ISO9001, ISO27001 and ISO44001 & ISO14001
- Our embedded contract performance monitoring and client satisfaction processes minimise issues and maintains our reputation for delivery
- We can work within client's systems and are highly experienced in data management software such as SharePoint, Jira, Trello, MS Project, Primavera P6, etc
- i3Works staff hold appropriate security clearance (generally SC and above), and the company itself holds Cyber Essentials+ and ISO27001. All staff are trained in cyber and data security

Services Implementation: On-boarding and off-boarding support

- We follow a non-intrusive process for project implementation (on-boarding), transition and handover effectively and smoothly transitioning to business as usual (off-boarding). This is customised to each of our clients and projects
- We apply the i3Works 'Engagement Model' which includes assigning a senior account director to each contract. The model ensures engagement is formally controlled and enables effective client outcomes

Contract Termination Terms

- Negotiable depending on the requirement and length of engagement
- For further information see our Terms and Conditions included within the service description

Additional Information

- Support hours are standard working hours Monday to Friday

i3Works is a Bristol-based consultancy with nationwide coverage. We have extensive experience of working with high-profile clients across a number of sectors, including:

- Defence
- National Security
- IT/Comms
- Public Sector
- Private Sector (Energy, Utilities, Rail, Infrastructure, Health, Technology)
- Nuclear

Our people are experienced, highly qualified and trained in the relevant techniques for their skillsets. Our understanding of the theory is evidenced by a range of qualifications, from MBAs through to (APM) Registered Project Professionals.

More importantly, we know how to put the theory into practice, when to adapt it and when to try something new, so that we can deliver effective and efficient solutions tailored to the specific demands of our clients.
