- Agile principle training.

SERVICE BENEFITS

- Remote and in-person training that is fit for purpose.
- Qualified and dedicated trainers.
- Meeting the training requirements of the audience.
- Effective ongoing training.

KEY CASE STUDY EXAMPLES

AVIVA

Aviva needed to upskill 20 of their Developers in React Native to complement the re-platforming of their app, including languages and frameworks such as JavaScript, Typescript, and React. Our Academy team along with subject matter experts across AND developed a comprehensive learning pathway for skill proficiency levels and delivered training via workshops, mentoring and action learning groups to ensure learning could be immediately applied on the project.

sky

Working closely with Sky we have created various learning pathways including a 'Cultural Connect' pathway to improve relationships with offshore teams and a 'Leading with Excellence' pathway to equip leaders with leadership skills and behaviours. This has involved focus group sessions, coaching, self-led upskilling and HBDI framework assessments with over 28 hours of training content delivered over a few months.
