Service overview

We provide Drupal upgrade services.

Since our inception in 2008 we have specialised Drupal development. We provide design & development upgrades. We are here to help with development of an existing platform, third party integrations, new functionality, or security upgrades.

Each member of our expert Drupal team has at least 15 years experience to facilitate your upgrade requirements.

We provide upgrades from older Drupal versions with our team of designers, UX consultants and experienced Drupal developers.

If you'd like to discuss the best options for your project directly, please email William Velasco, Website Express' Sales Director on sales@website-express.co.uk or feel free to telephone 029 2000 4547.

Company details

Website Express Ltd. is an established technology company specialising in the design, development and customization of open source technologies to create world-class web, mobile and intranet solutions for financial, nonprofit and educational institutions.

Established in Cardiff, the Capital city of Wales, in 2008, we have achieved year-on-year growth and now field a team of dedicated and highly experienced technical analysts, architects, designers, developers and project managers to realise the full potential of your project.

Notable clients of ours include HM Treasury, Estyn, Bath & North Somerset Council, Essex County Council, Gloucestershire Councty Council, Equiniti, The International Baccalaureate (IB), The Global Alliance for Improved Nutrition (GAIN) and Cardiff University.

As industry leaders in Drupal development and design, we have the skills and experience to create a bespoke user-centric Drupal-based solution and can offer upgrades and custom migrations of your data from previous versions of Drupal or other content managed solutions.

Website Express Ltd. 4 Museum Place, Cardiff CF10 3BG | Registered in England and Wales. Company no. 7580609

We have extensive experience with a wide range of Drupal projects, from the design and development of Responsive Mobile Sites to E-Commerce Sites and everything in between.

We specialise in multilingual solutions, having delivered complex yet friendly-to-administer systems for both the IB and GAIN. Taking our role in the Drupal community seriously, we donated a complete translation of Drupal core and the Acquia Drupal distribution into the Welsh Language.

We also offer Drupal Maintenance and Support to keep your site secure and running well, and even a Drupal SOS service if your site hits an urgent problem and needs a fast resolution.

Our optimised Drupal hosting platform is able to deliver 100% scores on Google's "Test my site" tool, and all our hosted sites sit behind a global Content Delivery Network which serves content to your users from the closest possible worldwide location and also provides outstanding protection against Distributed Denial-of-Service (DDoS) attacks.

Website Express are organisational members of the Drupal Association, in May 2011 became the first Acquia partners in Wales and also have ISO 9001 accreditation and Investors in People (IIP) status.

Contact us today to see how we can help bring your project to fruition.
