MICROSOFT POWER PLATFORM TRAINING AND DEVELOPMENT

Targeted training for Microsoft Power BI, Power Automate and Power Apps

Our team of expert Microsoft training specialists offers bespoke learning and development plans tailored to your organisational needs and Power Platform strategy.

With our training, we'll empower your people to streamline processes with Power Automate, create low code business solutions with Power Apps, and gather actionable insight using Power BI.

“The team invest time in getting to know what’s happening around the organisation, what’s working, and where the challenges are.”

Head of Data Management, Governance and Skills Development

MINISTRY OF DEFENCE

OUR APPROACH

As technology change management specialists, our trainers take a people-first approach to digital upskilling. We'll work with you to identify learning goals for Microsoft Power Platform, empowering your team to streamline workflows, develop low-code solutions, and extract data-driven insights

BENEFITS

Equip staff with skills in process automation and data analysis

Leverage Power BI to visualize data and make informed decisions

Create custom business applications without extensive coding

Deploy and manage Power Apps effectively

Drive Power Platform adoption across teams and departments

Upskill and save on software licensing and external development costs

FEATURES

Power Platform learning and development plan to suit your organisation

Training in Power BI, Power Automate (Flow) and Power Apps

Upskill and empower your people to use Power Platform applications

Flexible approach to suit different levels and user personas

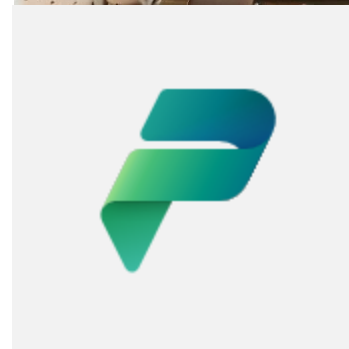

Introduce workflow automation, Power App development and BI analysis

Training needs analysis uncovers learning opportunities and priority topics

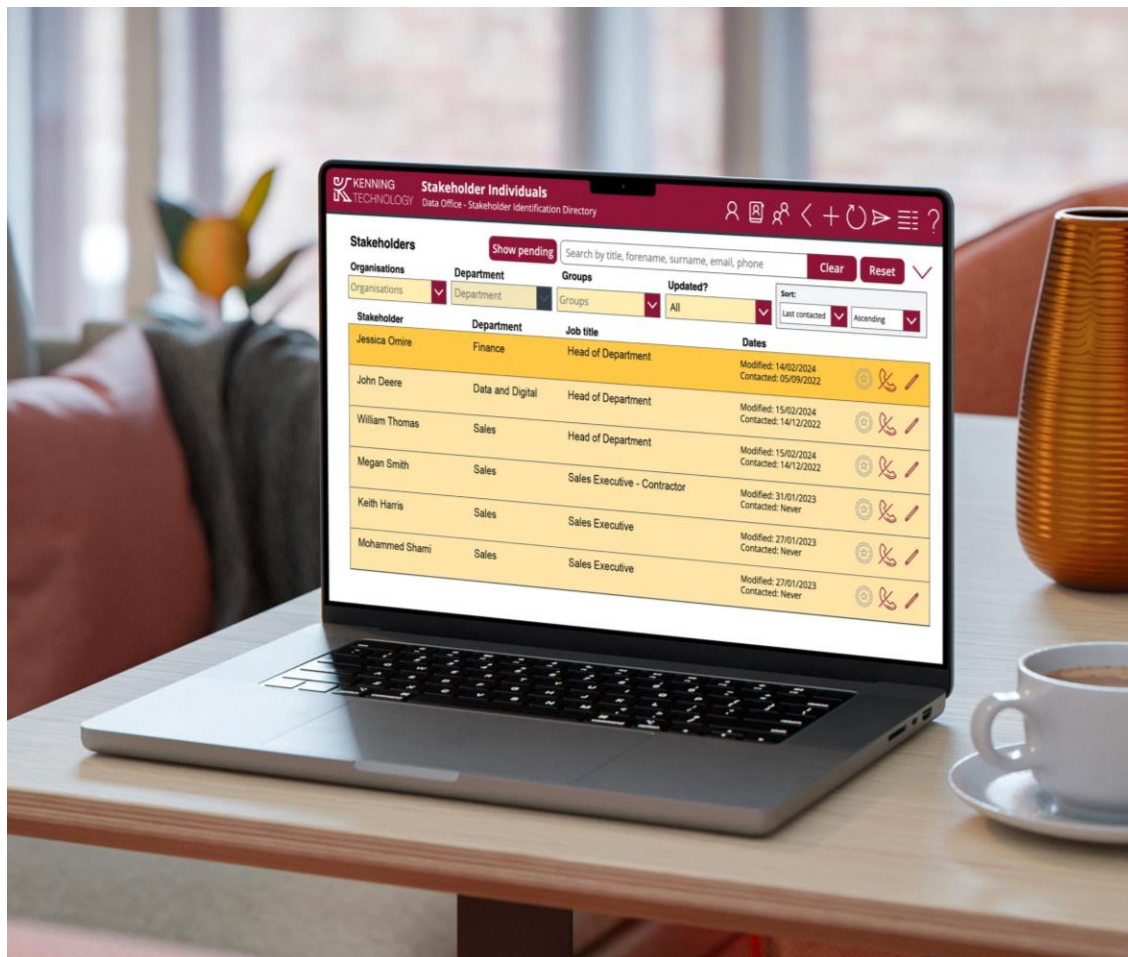

Virtual, classroom and white-glove training delivery available

POWER PLATFORM IN ACTION

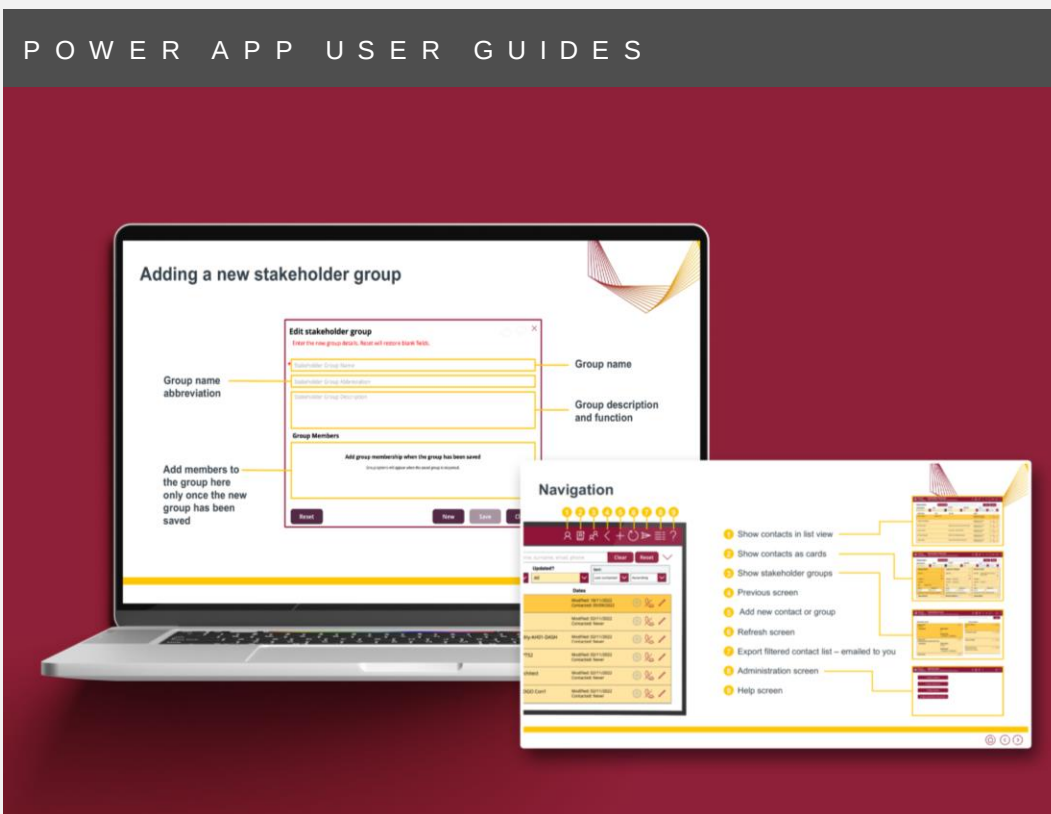

STAKEHOLDER ENGAGEMENT APP

POWER PLATFORM TRAINING

Experienced trainers get your people on track for new ways of working – from white-glove support to multiple-user, virtual training sessions
