Automation & Low Code - Service Description Document

Summary:
Sandhata Technologies Ltd specialize in providing cutting-edge automation and low-code solutions to empower businesses to streamline operations, enhance efficiency, and drive innovation. Our comprehensive suite of services, ranging from strategy consulting to low-code application development, is designed to meet the diverse needs of our clients and propel them towards digital transformation.

Services:

1. Strategy & Consulting:
- Our expert consultants collaborate with clients to develop tailored automation strategies aligned with their business objectives.
- We conduct thorough assessments to identify automation opportunities and develop roadmaps for implementation.
- Our strategic guidance ensures that automation initiatives deliver maximum value and ROI.

2. Business Process Management:
- We analyze existing business processes and optimize workflows to improve efficiency and productivity.
- Our solutions automate repetitive tasks, reduce manual errors, and accelerate time-to-market for products and services.

3. Robotic Process Automation (RPA):
- Our RPA solutions automate routine tasks using software robots, freeing up human resources for more strategic activities.
- We design and deploy bots to perform data entry, reconciliation, report generation, and other repetitive tasks across systems and applications.

4. Optical Character Recognition (OCR):
- Our OCR solutions extract text from scanned documents, images, and PDFs with high accuracy.
- We enable businesses to digitize and process large volumes of documents efficiently, reducing manual data entry and improving data accuracy.

5. Intelligent Document Processing (IDP):
- Our IDP solutions combine OCR with machine learning algorithms to extract data from semi-structured and unstructured documents.
- We automate document classification, data extraction, and validation, enabling faster decision-making and improved compliance.

6. Process Mining:
- Our process mining solutions analyze event logs and data to visualize and understand business processes.
- We identify bottlenecks, inefficiencies, and compliance risks, enabling organizations to optimize processes for better performance and outcomes.

7. Low-Code Application Development:
- We empower business users to create custom applications with minimal coding using low-code development platforms.
- Our solutions accelerate application development cycles, reduce development costs, and foster innovation within organizations.

At Sandhata Technologies Ltd we are committed to helping businesses harness the power of automation and low-code technologies to drive digital transformation and achieve sustainable growth. Contact us today to learn how we can empower your organization with our innovative solutions.
