## Pricing

We take pride in our client-centric approach to pricing and follow a clear and transparent pricing model. Our approach is to provide fixed fee-based pricing for outcomes that align with your requirements. We base our pricing on well-considered assumptions regarding the time involved, as well as our day rates. This ensures that you not only receive top-quality services but also feel confident that you’re getting exceptional value for your investment.

For projects that require limited expert support, we offer a day rate basis. This approach does not compromise the quality of service or expertise you’ll receive. We are flexible and tailor our pricing to meet your needs.

We believe in transparency, and our pricing reflects the expertise, dedication, and tangible results we deliver. With Perago, you’re not just paying for services; you’re investing in a partnership that yields meaningful outcomes.
