Service Definition
Agile / Capability Transformation / Training and Development

OLIVE JAR DIGITAL

Who We Are

Olive Jar Services include a range of activities that ensure successful implementation of your cloud service. We design and deliver cloud based services from Discovery to Live. We provide full agile multi-disciplinary teams who are ready to commence work on your service immediately.

Our teams are agile skilled resources who have specialist knowledge in their fields of expertise. This includes areas such as User Research, Design, Test, Implementation, Development, QA, Data Migration, Architecture, Security, Scalability and Maintainability of Cloud services.

We work with your internal teams, building the service to achieve the goals set. We can coach internal teams and mentor your team as needed, to help them upskill rapidly.

CYBER ESSENTIALS PLUS

Agile / Capability Transformation / Training and Development

OLIVE JAR DIGITAL

We've provided classroom training and 1:1 coaching in Agile, Business Analysis, User Research and Product Ownership. We coach technical areas, including Azure, Data Migration and Integration and helped setup support pipelines and Service Operating Manuals.

We've trained apprentices on DevOps, continuous delivery and integration, robust and scalable environment management and lean capabilities. Upskilling through pair programming and mentoring of apprenticeships to support the full Software Development Life Cycle.

We've mentored Business Analysts in user story definition, tools and technique enhancement, agile development and stakeholder management. We facilitate workshops, 1:1s and shadowing activities, to complement on the job mentoring.

We've delivered Agile coaching, to deliver true value from using Agile methodologies within the constraints of the organisation. Our consultants embed skills and behaviours, making change sustainable by coaching at all levels, creating effective support pipelines.

Features

- Hands on training and upskilling from Olive Jar experts
