HACKING

Supplier Assurance Pricing Document

Our commercial proposition for this service will be scoped on a client by client basis utilising the day rates outlined in the SFIA rate card.

In addition to one off engagements this type of service will typically be delivered under a multi-year agreement. Clients signing up to a multi-year agreement can benefit from economies of scale and insulate pricing against inflation.

This service is relevant for clients with between 50 and 2,000 suppliers.

Notes

1. This service is priced on a case by case basis dependent on the organisations supplier base, criticality of suppliers and complexity of assessment questionnaires. We provide fixed prices based on the day rates outlined in our SFIA document.
2. Engagements are typically for one year or over multiple years although certain elements of the service can be purchased as one off engagements.
3. Clients purchasing multiple year contracts benefit from economies of scale and are also able to insulate their fees against inflation.
