About Us

Who we are?

BetterGov started out as system implementation experts in Local Government and now support some of the largest Central Government Departments in delivering cloud and transformation programmes. We are user-focused, results-driven and Agile. We have experienced teams which can embed seamlessly with your existing people, deliver as a stand-alone teams or work to enhance your existing capabilities through training, coaching and mentoring.

What do we do?

We work in the open, collaborating with client teams and 3rd parties to deliver cloud and transformational change. We often act as a Technical Delivery Partner, supporting clients to build new products and transform their services. We also deliver on fixed scope pieces of work adhering to the GDS service standards taking services from discovery through to alpha, beta, and live. We can engage flexibly through fixed-price, capped T&M, and results-based models.

Why choose BetterGov?
