

GOV.UK OneLogin Implementation

Service Definition
G-Cloud 14 2024

Service Overview

GOV.UK OneLogin Implementation

GOV.UK OneLogin will enable your service users to access your services without the need to another account and password. BetterGov support the integration of GOV.UK OneLogin into your existing services and seamlessly manage the transition of users from their existing account to new OneLogin accounts.

Features

- Integration of GOV.UK OneLogin into existing digital services
- Adoption of GOV.UK OneLogin for new digital services
- Migrate users from previous login model to new login model
- Design user communications to communicate the benefits of OneLogin
- Configuration of user roles and role based access
- Integration of password reset journeys
- Integration of access to other GOV.UK services
- Configuration of text based security codes to support login
- Integration of MFA solution

Benefits

- Single access to public sector services through OneLogin
- Improved citizen experience through shared data across services through OneLogin
- Ability to adopt role-based access
- Improved security through MFA
- Eliminated dependency on the GOV.UK OneLogin programme to achieve integration

About Us

Who we are?

BetterGov started out as system implementation experts in Local Government and now support some of the largest Central Government Departments in delivering cloud and transformation programmes. We are user-focused, results-driven and Agile. We have experienced teams which can embed seamlessly with your existing people, deliver as a stand-alone teams or work to enhance your existing capabilities through training, coaching and mentoring.

What do we do?

We work in the open, collaborating with client teams and 3rd parties to deliver cloud and transformational change. We often act as a Technical Delivery Partner, supporting clients to build new products and transform their services. We also deliver on fixed scope pieces of work adhering to the GDS service standards taking services from discovery through to alpha, beta, and live. We can engage flexibly through fixed-price, capped T&M, and results-based models.

Why choose BetterGov?

Our Experience

- Complex digital and cloud projects and programmes across Government and other large public sector organisations
- Rapid, Agile projects to make immediate impact

Our People

- Highly experienced and qualified
- Skilled at embedding with your teams, sharing knowledge and leaving them stronger because of our engagement

Our Commitment to Excellence

- We build lasting relationships with clients, based on demonstrable success and exceptional outcomes
- Agile, collaborative account and engagement management means we're responsive to changing needs
- Never-ending improvement, innovation and staying ahead of the curve
