# Our Services.

Our Services put data at the heart of your digital service transformation, delivering insight that drives positive outcomes for your business.

#### HOW WE HELP YOUR BUSINESS

Our Resource Augmentation offering accommodates shifting demands with a range of DDaT skill sets and resources across multiple disciplines.

Our Resource Augmentation enables us to accommodate your shifting demands with modified skill sets and resources as required across multiple disciplines, including data, digital, and strategic levels. Our flexible approach means that we'll only supplement your current team when you face a skills or personnel shortage. It's the most cost-effective response. As with our Service Offerings and Managed Services, we're committed to outcomes. Transferring knowledge and focusing on your objectives are paramount.

WHAT'S ON OFFER?

- Visualisation / Analytics Designer

- Service Designer
- UI Designer
- UX Designer
- User Researcher
- Strategy Consultant
- Change Consultant

CASE STUDY | LEADING UK ENGINEERING FIRM

# Engineering Company.

Aiimi embedded a data science team in a leading UK engineering company to categorise and secure its vast store of documents for compliance with UK GDPR regulations. Our services team also put the Aiimi Insight Engine in place to swiftly search, discover, and enrich 120,000 documents each week. Representing a significant increase on the organisation's weekly processing rate of just 500 documents, our solution enabled the team to process its outstanding backlog 13-fold faster.

From this backlog, 70% of documents were automatically classified as 'not subject to export control,' immediately eliminating any need for manual processing. The remaining 30% classified as 'possibly subject to export control' could now be manually processed at an average rate of 5 minutes each, significantly faster than the former rate of 35 minutes per record. Aiimi's software and services enabled this organisation to access the compliant files it needed quickly, easily, and securely.
